VOL. XXVI BELLEFONTE, PA., THURSDAY MORNING. AUGUST 1, 1895. NO. 30

HOLMES, THE MURDERER.

Evidence Accumulated by Inspector Fitzpatrick, of Chicago.

Chicago, July 28.—Unmistakeable evidence of murder at the Holmes castle in Englewood were last night placed in the hands of Inspector Fitzpatrick. That at least four people have been cruelly murdered in this chamber of horrors is now a practical certainty.

The skeleton of one of Holmes's victims, supposedly that of Mrs. Julia Connor's, is now in the Inspector's office in the city hall. Two other skeletons which came from the same place will be placed in his possession to-morrow. A fourth body has been traced to Philadelphia and its recipient there will be no doubt discovered in the course of a few days. The man who produced this startling evidence was closeted with the inspector and detectives Norton and Fitzpatrick three hours last night. The Inspector declines to make known at present for the reason that it would handicap his further investigations. The man is the one who mounted the skeletons for Holmes.

Another most important feature of this man's story was his statement that during all this time that he was fixing up skeletons for Holmes, Pat Quinlan was about the premises and seemed to be Holmes's trusted man. To verify his statement in this regard Quinlan was sent for and confronted by the mounter of skeletons. What took place between the two men the inspector declined to say, but when Pat came out of the sweat box this time he looked ten years older and his whole bearing was that of abject despair.

The Question of Liberty of the Press

Asheville, N. C., July 28.—In the matter of the rule issued by H. G. Ewart, judge of the criminal court, against Frank E. Robinson, editor of the Citizen, for contempt, the editor appeared yesterday, accompanied by prominent members of the Asheville bar, who volunteered their services to defend him. The answer of the editor to the charge of contempt was that the editorial complained of did not represent the proceedings of the court unfairly and that the criticism was made in pursuance of the rights of the press under the constitution of the United States and of North Carolina as well. The editor further denied that he intended any contempt of court and under decisions of the supreme court of North Carolina it was believed by all the attorneys that this purging of the defendant settled the matter.

To the surprise of all present, however, Judge Ewart, after a long decision from the bench, during which he displayed great feeling, sentenced the editor of the Citizen to pay a fine of $250 and be imprisoned in the common jail of Buncomb county for thirty days. Bond was fixed at $2,000 and in a few minutes the bond was made up by leading citizens bankers, merchants and others of the city, and the editor was released from the custody of the court. An appeal was at once taken to the supreme court of North Carolina and the case will be fought to the end by the best legal talent in the state.

The Alderman Threatened to Shoot.

West Superior, Wis., July 58.—A sensation was caused late last night in connection with the failure of the Superior National bank yesterday. Alderman Brennan, who had $1,700 deposited in the bank came to the door of the bank and demanded the money. He pulled a revolver and threatened to blow the brains out of the officers. After some trouble he was quieted down by some friends.

The Superior National bank went into the hands of the national bank examiners. The cause was the heavy withdrawal of deposits. The assessts are $275,000 and liabilities are $143,000, with less than $10,000 in cash on hand. The city is a heavy loser, having on deposit there $65,000. This is the same bank that A. A. Cadwallader was president of when he embezzled the $27,000 three years ago for which he is now serving a term in state prison.

Miners Will Consult.

Canton, O., July 28.—President Ratchford, of the Ohio Miners' association, will go to Pittsburg to-morrow to consult with the leaders there. He says that if the Western Pennsylvania operators refuse to concede wages of 69 cents and 64 cents, with or without the company stores, all the miners in Ohio will be ordered out this week, either by circular or by convention. He says that a successful national strike will certainly follow the failure of Pittsburg operators to yield now. He maintains that the miners are not behind by any previous agreement.

The face value of many actresses is enhanced by her portrait in the lotion ad.

Imaginary trouble usually casts a shadow ten times its size.

THE INDIAN TROUBLES.

Troops Have Left Fort Russel to Look Into Matters.

Cheyenne, Wyo., July 28.—Orders were received here yesterday calling out the five companies of the Fort Russell garrison for service in the Indian campaign and the troops left here at 8 o'clock last night over the Union Pacific. They will be pushed rapidly to the front. eports were received here that two more companies of cavalry had been ordered to the front from Fort Robinson. A dispatch from Leander, Wyo., states that at a large public meeting held yesterday afternoon, one hundred citizens volunteered to go at once to the assistance of the settlers at Jackson's Hole. They are all prepared with horses, arms and necessary equipment. The feeling is intense, that place being only about sixty-five miles from the scene of the trouble.

A letter received direct from Jackson's Hole yesterday morning written by a settler whose ranch is made the place for assembling the settlers' families, reads as follows.

"We are undergoing an awful state of affairs at present. We are banded at my place, having fortified ourselves to make a desperate fight for our wives and our children, who are here from all parts of the valley, and I feel that we can stand off the whole Bannock tribe of Indians if they tackle us, but we are neglecting our homes, crops and stock to protect our families. There have been three parties of Indians arrested, two parties convicted, and the third party of nine bucks, while being escorted from the Fall River basin to our valley, broke and ran and were fired upon by the guard and one or more killed and some wounded, but they escaped."

The letter was dated July 19, and is confirmed by another letter from there to the same purport that the settlers had fortified and were well prepared for an Indian outbreak.

Foster's Forcasts.

St. Joseph, Mo., July 28.—My last bulletin gave forecast of the storm was to cross the continent from July 28 to Aug 2, and the next will reach the Pacific coast about Aug. 3, cross the west of Rockies country by the close of the 4th, the great central valleys from the 5th to 7th, and the eastern states about the 8th. This disturbance will be of unusual force, and severe storms may be expected, accompanied by extreme temperatures. The first ten days of August will probably average cooler than the middle third of the month.

Warm wave will cross the west of Rockies country about the third, great central valleys and fifth and eastern states the seventh. Cool wave will cross the west of Rockies country about the 6th, great central valleys the 8th and eastern states the 10th.

Summing up my forecasts for the four crop months, March, April, May and June, only one error occurs. Southwestern Texas had more rainfall than calculated. For all other parts of the country the verification of my rainfall forecasts is the most remarkable event ever recorded in connection with meteorology.

Twelve Thousand Tailors Strike.

New York, July 28.—Of the 15,000 tailors employed by contractors in this city, Brooklyn and Brownsville, fully 12,000 are now out on a strike. Mayor Schoenfeld, one of the organizers of the United Garment Workers, called the men out last night. In a statement he says:

"Our new agreement will call for fifty-nine hours work instead of sixty hours as heretofore; a weekly wage at Union prices; the employment of union men only, and the total abolition of sweat shops, as demanded in last year's agreement."

At the headquarters of the contractors, Chairman Witkowski was seen. He said: "The agreement we made last September and kept to the letter does not expire until sometime between the 1st and 15th of September. Since the men got the agree they have been unreasonable and arrogant. They now demand further concessions which we cannot grant."

Sharp Stick Down His Throat.

DuBois Courier: Little Henry Reed, aged about 7 years, was running around on Long avenue last evening with a sharp stick, about eight inches long, in his mouth. Another boy came along and hit the stick a punch. It went into young Reed's mouth and down his throat nearly half its length. William Robinson saw the bad fix the boy was in and pulled the stick out. The boy was badly hurt and was carried to his home.

Hot weather proves depressing to those whose blood is pure. Such people should enrich their blood with Hood's Sarsaparilla. 8-1-1t

DISCOVERY OF THE VAULT.

The Place Where Holmes Applied Quicklime to the Bodies of His Victims.

Chicago July 29.—The huge brick vault underneath Holmes' charnel house was unearthed by the police to-day, who are still delving in the earth in and about the cellar. The existence of this vault has been thecretical until to-day. Many rumors of such a receptacle have been circulated, but it was not until the police discovered Machinist Chappel that they succeeded in gaining any idea of the location of the vault. When Chappel accompanied the officers through the Holmes house yesterday he indicated the location of the vault in the southeast corner of the cellar and early this morning half a dozen of men were put to work digging in the place indicated. At 3 30 o'clock the officers in charge of the work telephoned police headquarters that they had reached and uncovered a long strip of the roof of the vault. Superintendent Badenoch at once gave orders to get the ground in such shape that the vault could be easily opened tomorrow and to discontinue the work then for the day.

The police theory is that Holmes used this vault for quickliming the bodies of his victims and getting them into such a condition that they could not possibly identified. While the police officials are not hopeful of finding bodies of murdered people in the vault they are at the same time hopeful of securing evidence to fully establish just what the vault was used for and what connection, if any, the vault had with the half destroyed human bodies that were carted away from the charnel house to the home of the articulator. The finding of the vault made the police much firmer in their belief that Chappel is a reliable and valuable aid to them in the work they have before them.

Bloomer Ball.

San Francisco, Cal., July 29.—Since a bloomer ball was given in Chicago a few days ago preparations have been made for several functions of the kind in this city. As a result the local clergymen are considerably agitated over the subject and last night Dr. Westwood Chase, of the Howard Street Methodist church, paid his respects to the bloomer girl and the bloomer ball, in the following words:

"I believe in the wheel and the women riding the wheel, and in her getting rid of a great deal of unnecessary skirts, but when it is announced that no woman can attend the bloomers ball wearing skirts, then it is time to put in a protest. It is my humble opinion that no woman will go to that bloomer ball who is virtuous and prudent and possessed of taste, but let nobody quote me as saying that all who go to that ball are not virtuous women. I have not said that, but that they will not be three of those things, I say that in my opinion, as being a just prophecy.

"I believe every respectable woman will frown upon such an entertainment. The danger of the bloomer craze lies in the fact that if the public allows little latitude in dress there are those in every community who are disposed to make it disgraceful."

'Twas a Comedy of Errors.

Philadelphia, July 29.—What was feared to have been the abduction of Mrs. Emily Gledhill, of Manchester, England, a cabin passenger on the steamer Ohio, which reached here on Saturday from Liverpool, turns out to have been a comedy of errors.

The mistakes came about through the failure of Miss Grimes, a cousin, to meet Mrs. Gledhill. On her passage the latter made the acquaintance of a Mrs. Mennicken, of Germantown, Philadelphia, who when Mrs. Gledhill's relatives failed to appear, persuaded her to go to her home until they could be found.

Miss Grimes had never seen Mrs. Gledhill and upon inquiring for her aboard the steamer was directed to the steerage department where she conducted an unsuccessful search. In the meantime Mrs. Gledhill went ashore with Mrs. Mennicken. The dilemma was straightened out last night.

Indiana Miners Want to Know Some Thing.

Terre Haute, July 29.—At the request of six local lodges in Sullivan county of United Mine Workers State President Purcell has called another delegate convention for next Friday to consider the general situation in this state. It is expected that a resolution calling for the resignation of President Purcell, and Secretary Kennedy will be proposed of their action recently in submitting the fifty-one cent scale to the miners of the state. In nearly all mines south of the national road operators have abandoned their association and are paying the sixty cent price.

THE MANITOBA ALL RIGHT.

And From All Accounts So Is the Disabled Cunarder Aurania.

Quarantine, N. Y., July 29.—The Atlantic transport line steamer Manitoba arrived this morning from London. Last Friday night a large trans-Atlantic passenger steamer was sighted proceeding slowly. In answer to signals it was learned that the disabled vessel was the Cunard steamer Aurania, Captain McKay, from Liverpool and Queenstown for New York.

Captain Griffith offered assistance but Captain McKay politely declined, stating that none was required. He requested to be reported all well on board. Inquiry was made concerning the damage, but no information was given. Captain Griffith said that it could not be very serious and that the Aurania would undoubtedly make port under her own steam. When spoken by the Manitoba the Aurania was about 500 miles east of Sandy Hook.

Captain Moller, of the North German Lloyd steamer Saale, which arrived this afternoon from Bremen and Southampton, reports that he sighted the Cunard line steamer Aurania, before reported disabled, and bore toward shore. This was at noon on July 27. The Aurania first displayed signals giving her name and then others indicating slight damage to engine. The next signal displayed was "All well on board." Captain Moller offered assistance, which was declined. The weather prevailing at the time was fine and the sea smooth. The Saale then proceeded on her voyage to this port.

Settlers Are Tough.

Philadelphia, Pa., July 29.—L. F. Pease a member of the Princeton geological expedition, which was a week ago reported captured by the Bannock Indians, has arrived in this city. He says the first news of the Bannock troubles reached the party at Dubois, and caused them to change their route, and, instead, of going north over the Black Rock trail, which passed through Jacksons Hole, they set out for the park over an entirely new trail, thus avoiding the Indians. In speaking of the situation, Mr. Pease said:

"The condition of things is a good deal worse than reported, at least so it appeared to us. The whites in Jacksons Hole and thereabouts have a most unsavory reputation, and it is spoken of as one of the toughest sections of our country. The Indians, no doubt, hunt the big game a great deal out of season limits, but no more than if as much as, the whites, who are consequently jealous of them. The whites are very bitter against the Indians on principle, to boot, and it is the popular sentiment of the whole western country that the best Indian is the dead Indian, and that a chance of picking a quarrel, such as this one, for instance, when offered, should not be allowed to slip.

May Be an Important Capture.

Allentown, July 29.—George Carson, one of the accomplices of Harry Russlle, Joe Killoran and Charles Allen, the trio of postoffice thieves who escaped from the Ludlow street jail, New York city, three weeks ago, and for whose capture a reward of $4,000 is offered, is supposed to be in the Allentown jail. He is accused of picking pockets. The man was arrested at the Sangerfest picnic last Wednesday while extracting a purse from a woman's pocket.

He persistently refused to give his name until to-day, when he said he was James Moore. On Saturday Detective Haines came across a picture of Corson, the accomplice of the New York postoffice thieves, and at once recognized a striking resemblance between it and the pickpocket. Today the prison authorities tried to take a picture of the prisoner, but the latter obstinately refused to be taken and either concealed his face behind his hands or threw himself on the floor. He was questioned by the officers about his alleged connection with the Ludlow street jail delivery, but declined to talk on the subject.

Held Secret Sessions.

Pittsburg, July 29.—This morning a secret conference of coal operators of the Western Pennsylvania district was held in Pittsburg. The results of the meeting are unknown. It is believed that a meeting of the Coal Operators' association has been called for to-morrow or Wednesday. The chief national and state officials of the United Mine Workers were also in secret session today. The demand of the Pittsburg district for a restoration of prices is being strongly backed up by Ohio, Indiana and Illinois. The national officers refused to discuss the situation today, but despite this reticence, it is quite evident that matters of great importance to the coal mining interest will develop within a few days. Mass meetings were held yesterday in the mining districts and others are to be held during this week.

QUAY'S POWER WANING.

His Following so Slim That He Asks That Their Names Be Suppressed.

Philadelphia, July 30, 1895.—Some time ago when Senator Quay was in Philadelphia he requested the newspaper reporters to refrain from printing the names of his visitors. He explained that certain people did not wish it to be known how they "stood" in the combat. Everybody understood that the Senator's real reason was that the publication of his callers names was a simple repetition of the roster of the "old guard," a guard, however, that is now as weak numerically as it is insignificant personally. Quay's critics had been making merry over the character of his visitors and counsellors, and the "old man" called a halt in printing names thereafter.

It is significant that during Senator Quay's recent visits to Philadelphia he has been called upon by very few if any, real substantial Republicans, men prominent in the counsels of the party or conspicuous in public life. He has invariably been surrounded by a clique of disappointed politicians and mischief-makers; the class indeed that has been largely instrumental in misleading him into his present attack against the State Administration.

The same old crowd has been around him since his return to Philadelphia on Friday; the same old haters of Hastings and his friends. State Senator Penrose, returned from his western trip, was there of course, and so were "Bull" Andrews and Frank Willing Leach; ex-Magistrate Durham, and his toadies, Magistrate Harrison and Councilman Seger, flitted in and out; and the notorious "Joe" Nobre, he of the fire-and-brimstone vocabulary, was in constant attendance. Senator Thomas paid his respects, and of course Thomas V. Cooper dropped in. Ex-base ball player Magistrate Fulmer, of the First Ward, and "Fighting" Bob Evans, were among the visitors, but there were no new faces in the crowd.

This paucity of influential people among Quay's friends and advisors, as demonstrated by the character of those about him at the hotel, is a matter that is causing much comment in Philadelphia. The time was, that when the Senator dropped into town those who called to see him were as remarkable for their numbum, as for their political, social and business importance. But all that is changed. The expression seems harsh, but he seems to be shunned by influential men in Philadelphia. Certain it is that since he began his war on the Administration he has alienated friendships in Philadelphia that were both powerful and desirable; and there is not wanting some degree of commiseration for him because of the nondescript array of supporters that now surround him.

Because His Father Was a Murderer.

Williamsport, Pa., July 30.—The suicide at Antrim, Tioga county, several days ago, of John Renstrom reveals a strange story. He killed himself because he discovered that his father was a murderer. Two months ago the elder Renstrom died. Before his death he wrote a letter and sealed it in an envelope with instructions that it be opened at his death. The letter was a confession of murder. While on the way to New York two years before, Renstrom said, he enticed August Peterson into a forest and there killed him with a club. He took the $300 Peterson had in his pocket and buried the body in a thicket. The father's confession so preyed upon young Renstrom's mind that he hanged himself in a garret with a clothes line.

Nine Persons Drown ed.

Queenstown, July 29.—The lugger Zenith has been burned off Baltimore, County Cork. The flames broke out shortly before midnight and spread rapidly in spite of the efforts of the crew. She had on board a crew of six men and twenty-one passengers out on a pleasure trip from Gladore, to which place they were returning from Baltimore, when flames burst through the hatchway.

A panic followed, and a boat which was lowered was swamped by the crowd of people who clambered into it. During the confusion nine persons were drowned.

Three at a Birth.

Philipsburg, Pa., July 29.—Early this morning Mrs. Keith, wife of Switchman James Keith, employed in the Pennsylvania railroad yards at Osceola Mills, gave birth to three boys, whom her husband has named Hastings, McKinley and Reed. Governor Hastings was immediately advised of the event, and telegraphed his congratulations and notified the proud father to look for a check in the morning. Mother and children are doing well. Twelve children had previously been born to Mr. and Mrs. Keith.

BOARD, room, books and tuition at Franklin College, New Athens, O., $3.00 per week. Catalogue free. 8-1-1t

NEWS FROM THE WEST.

There Has Been No Great Outbreak in the Bannock Country.

Salt Lake, Utah, July 30.—The first reliable news of the Indian troubles at Jackson's Hole proper which has been received for more than a week came by messenger this evening via Griggs, Idaho, from Fort Wilson, a little place located in the centre of a valley in Jackson's Hole, over one hundred miles from any railway. The dispatch is dated July 26 and says: "All the people of the valley are gathered at Wilson's ranch for protection. One hundred men are under arms. Night before last a council of war was held and four men were selected to reconnoitre and locate the Indians, but as yet the scouts have not returned.

"The Indians must have moved away back or left the district altogether, as no redskins have been seen for three or four days. A company of volunteers came into Fort Wilson from Teton Wednesday after traveling all night. Exaggerated reports of the trouble led them to believe help was badly needed at the Hole, but on their arrival here they were surprised to find all quiet. A consultation was held as to the advisability of going out and fighting the Indians. It was decided to remain passive for the present.

"The Indians are, no doubt, in the mountains and may make a descent on the settlers when they are not looking for it, but the opinion is that if they had been on the war path properly, they would have attacked Fort Wilson before this."

Tell it to the Printer.

How many business men know that it is to their direct advantage to figure as often as possible in the columns of the local papers. We don't mean by coming around for free advertising, but personal mention where your business is only incidentally mentioned. You have company, your wife goes visiting, you make an extra large shipment of butter, eggs or wool, you repair your house slightly, one of your delivery horses dies, or a score of other things happen that would make a readable item if it came to the newspaper man's notice, but that he is in no position to find out if you don't tell him. Make a memorandum and hand it to the printer, it helps you. There are men in this town who are seldom if ever mentioned in the paper simply because they observe a false modesty, and conceal rather than divulge their going and coming, but who are nevertheless just as susceptible to a little newspaper compliment as anyone.

Bulletins for the Farmers.

Secretary of Agriculture Edge will issue a bulletin this fall devoted entirely to commercial fertilizers, their use, composition, value and practical results. Circulars have been sent out by the agricultural department to many of the leading and most practical farmers in the state asking them to furnish the result of their experience with fertilizers upon crops produced on their farms. The bulletin will be used for reference and as it will not be for advertising purposes no special brand or make of fertilizers will be mentioned. Each one who contributes to the bulletin will receive a copy gratuitously. Secretary Edge is also preparing a bulletin showing the average price of farm products in the several legislative districts of the State.

Heavy Rains in Kansas.

Fort Scott, Kan., July 30.—An unprecedented precipitation of rain in the south east corner of Kansas this morning has again flooded the streams and wreaked destruction to life and property. In seven hours over four inches of rain fell in the city and this evening the town is inundated. The Missouri Pacific railroad shops are surrounded by water and the train service has been partially abandoned.

Many families have been driven from their homes by the trespassing river which is still rising and another storm reported lost so far. The damage to property will exceed that of the flood of the 5th inst., which was more destructive than any for years.

Aid for Cuban Rebels.

New York, July 30.—Information was received in this city to-day of the successful landing in Cuba last Thursday of two large bodies of insurgents, who brought with them two cannon, 700,000 rounds of ammunition, 500 pounds of dynamite and hundreds of repeating rifles and revolvers. One expedition consists, it is said, of 278 men and the other of 75 men, almost all of them veterans of the last revolutionary war in Cuba. The expeditions, it is stated started from two bays in the Bahama islands and were taken in small boats to several sailing crafts, which conveyed the whole party to Cuba.

When we see a great wheel in motion we forget how many small wheels are making it go.

THAT GAME OF BALL!

It Was a Brilliant Display of Parodies and Prodigies.—A Full Description of the Great Game.

The great and only agony is over and now arnica and Pond's extract are doing their healing work on arms and limbs. The wreck took place Thursday afternoon at the glass works meadow between the hours of 1 and 6 o'clock, and the victims were nine representatives of the Court House Ring and nine of our legal lights, who are at home to-day nursing the effects of their spasm of Thursday. For the information of the unsophisticated let us announce that a game of ball was undertaken yesterday between the "Soft Snappers" of the county and the "Hard Cases" of Bellefonte. But only six innings were required to impress upon the people the fact that it is no soft snap to handle successfully the disciples of Blackstone. At that stage of the game the score stood 30 to 9 against the Court House Ring and it was deemed the proper time to call "enough." The immense crowd of men, women and children that lined the hillside and the fences, long before Umpire Cunningham with $50 in one pocket and $75 in another—"pull money" you know—ordered the play of wreck and ruin to commence, realized that something was going to drop, and they were not far off in their calculations for many things did drop—both balls and players—from the time the game began until it ended. The betting was pretty strong, the majority of the bets being that one side would beat the other by a score of 100 to 75. It was wonderful—such interest in a match has never been witnessed here before. When Dale, familiarly known as "Jack," stepped to the plate to open the game, all hats were off, and everybody held their breath, for they knew that Jack would do something, as he is liable to do most anything. Pitcher Hunter had dust on his glasses and could not locate the plate—result, Jack took his base on balls with as much complacence as when he takes $10 for his signature on a legal document. Capt. Quigley followed with one of his old time hits advancing Jack to second. By this time, Hunter thought his sight was better and endeavored to make a grandstand throw to second to catch Dale napping, but the throw counted for a home run, scoring two runs. Orvis rattled at the reputation of the opposing pitcher and struck out. Hugh Taylor found that connecting with the tax payments was easier than connecting with a ball, and likewise fanned the air. "Chris" Murray, the $10,000 pitcher, the pride of the grandstand and the target of the small boy, made an Andreas-Hofer-Tyrolese Patriot hit, and scored the third run, after which Wetzel embraced his opportunity and struck out.

The "soft snappers" then came to the bat. Anson Rumberger playing the inning with a hit. Strohm, better with the pen than with the stick, retired on three strikes. Prothonotary Smith got to first as he got elected on the error of the other side, and then Hunter and Atwood ended the agony by striking out.

In the second inning Hunter developed his propensity to knock off the coat tails of the opposing players and in this way sent Spangler to first. In the next game a plate will be in front and behind the batsman for Hunter's benefit. Then the deadly work went on until the unfortunate number of 13 runs had been scored by the lawyers. The white caps of the Court House Ring with the symbols of skull and crossbones on the crowns were enough to bring death upon their heads. This was the great inning of the day. Runkle made a hit and then crawled on his hands and knees from second to third occasionally turning a sommersault in his excitement. Quigley reached first on a hit but was neatly turned down by his democratic opponents, Jackson and Dukeman between second and first. Singer made a bold attempt to locate Taylor's fly but hired a small boy to throw it into the pitcher. A moment later and he redeemed himself by putting Taylor out on third. Rumberger's patent way of catching flies on his bread basket now began with a dull thud and all hands were safe. Rumberger retired to right field for inflation and succeeded in catching two or three flies in his whiskers while looking paler than the time he was shot at and missed—so it continued the lawyers batting around a couple of times—and then the other side tried it again. Here Strohm made a great strike to a centre. Wetzel saw something coming his way and so grabbed the ball, and then spent several minutes in looking for it not knowing he had it in his clutches. He had forgotten to take a survey of the situation. Kimport saved a goose egg with his run in this inning. The remarkable coaching of treasurer Miles at first and the hooting of the roosters hired by Hunter, the rattle Murray were the beauties of this inning. In the third Taylor thought he was at a military election and "knocked out" the ball. Singer by mistake caught Runkle's fly and then made a double play. He says he often did that when he played in the Howard ball team. Smith and Dukeman scored in this inning and then the lawyers went at again. Dale made a run around the bases so fast that he fell at home from mere exhaustion. He will need a new shirt. Strohm invented a new style of play at this point. He runs back on a slow grounder, waits until it stops and then advances to meet it, in the meantime the bases are cleared. Space will not permit to describe the game in full but we will say that the "leg pullies" yesterday had their hands full to pull their own legs around the bases and then at the close were pulled home at the expense of the county of course, but that's all right. Rumberger says his men are so used to yarns that the next game must be played with a yarn ball. He is having one made the size of a pumpkin so that he can see it to hit it or to catch it. Good idea. Then it is softer you know. Orvis ran for the bases as fast as the ordinary politician runs for office. The appended score is as follows:

Lawyers.	R	H	E	Court House Ring.	R	H	E
Dale, l f	4	2	2	Rumb'ger ss	1	2	6
Quigley, c	4	2	1	Strohm, lf	0	1	3

Total	30	20	13	Total	9	9	24

Umpire Cunningham, scorer J. Hughes, time of game four hours, attendance 1000 at start, 16 at close, series to be played off next summer when all will be furnished with baskets, yarn balls and slabs.

YOUNG BYRNE DEAD.

Further Particulars of Thursday's Horrible Accident.

Young Byrne, who was nearly 18, and a son of Mr. J. E. Byrne, of Williamsport, was a tailor by trade, but was of a roving disposition and frequently started off on long tramps. He had been gone from his home for five weeks and supposed to have been on his way back. He and a fellow named Best, who broke jail in Williamsport on July 4th, arrived at Milesburg yesterday about dinner time. It is not known whether they came in from Tyrone on train 56 or not, but were seen lying under some trees near the station about the time it arrived there.

As is customary the train stopped a short distance west of the station to cut off the through cars before proceeding to this place and when the two men noticed it heading for the branch they got up as if to board it. They were on the side of the track farthest from the station and some one called to them if they wanted to get on they had better cross over to the platform, as it was higher. Not heeding the advice the men waited for the approaching train. It was running at about ten miles an hour when it passed the station and Best did not try to make it. Byrne made the attempt, however. He grabbed the third car from the caboose, but was too low to swing onto the step and the momentum of the train threw him right under it unto the track; three cars and the caboose passing over his legs.

Immediately the train was stopped and Alois Kohlbecker and several men ran to pick him up. Best started to run when he saw the accident, but Mr. Kohlbecker called him to come back and tell who his injured companion was. A stretcher was procured in the station and the boy was put into a car and brought here.

Meanwhile a telephone message summoned Dr. Seibert to the station to await the arrival of the train. When it got here he was taken off and carried into the baggage room where an examination revealed that the right leg had been cut off just below the thigh and the left one below the knee. The exhausted condition of the patient made immediate amputation impracticable, so he was carried to the Bush House where he died at half-past three.

The body was given in charge of undertaker Harris who had it ready for burial by the time Mr. Byrne, the boy's father, arrived at 5.15 to take his son's remains home. He returned with the body last night.

The young man was conscious up to the time of his death; he expressed great sorrow for his course and his first words, when picked up, were: "My God, my legs are gone." He began to say the Lord's prayer when he was put into the car to be brought to this place.

Best skipped out when the train reached here and was not seen afterwards, though the police went to hunt him

Awarded the Estate.

The lawyers who defended James B. Carpenter, convicted at Mifflintown of murdering his father, have been awarded the estate for which the murder was committed. They held that Carpenter inherited from his father; hence his assignment of it to them gave them the property. Judge Lyons decided that the murder inherited and now the supreme court affirms the decision. It seems that is the law. The next legislature should pass an act providing that when the natural heir murders the owner of a property for the express purpose of obtaining it, he or she shall not inherit; it shall go to the next heir or to the state. A law which gives a murderer a title in property which the crime was committed to secure is not a good law.

Festival.

On Saturday afternoon and evening, Aug 3, the Zion band will hold a festival n Gentzel's grove, along the road leading from Pleasant Gap to Zion, and a short distance from Bellefonte. If fun is what you are after, there will be the place to go. Ice cream and all the other delicacies will be sold on the grounds.

LOST.—A window curtain on E. Lamb street. Finder will be rewarded by returning same to this office. jy24-tf

How to Quiet the Indians.

Idaho dispatches predicting more bloodshed before the settlement of the trouble with the Bannock Indians, will excite no surprise. Indian troubles are never settled until blood is shed. The white man is not content that it shall be settled until some shooting is done to terrorize and subdue the remnants of a vanquished race. A human being has no business to be an Indian in the West or a negro in the South. But being such he should bear in mind that he is the sport of the cowboy and the brigadier. The black man and the red man never had a fair chance in this country at the hand of the white man, and while they are not the most advanced races of the world they are advanced so far that most of the troubles would be prevented if the white man dealt more fairly with his darker skinned brother.

Nearly every Indian assault is the revengeful payment of indignities offered by white men. Unfortunately those whites who are responsible for the disturbances are not the ones who suffer the results. Half a dozen cowboys have been known to stir up strife that resulted in troubles for all the whites in reach. The Indian has been systematically robbed by the white man for 400 years, plundered by the agents the government sent to protect him and abused by the lawless element of the frontier. Honest Indian agents and a few federal officials to see that he gets fair treatment would do more to end the Indian troubles than all of the government soldiers, although the soldiers have their part to play in the problem.

Melons are Plentiful.

The growers of watermelons in Indiana and Georgia report crops so plentiful that thousands of that delicious fruit are going to waste for want of cars to ship them. Those which are shipped are often delayed so long en route that the dealers refuse to risk the freight, which amounts to $125 to $140 a car. A car holds from 900 to 1,500 melons, according to size, and half of these become soft and not fit for market. The railroad companies sell them for little or nothing to peddlers, and so make about all the money there is in them.

Melons are selling in eastern cities at from twelve to eighteen cents wholesale, and very large ones from fifteen to twenty cents. The eastern markets are also flooded by the fruit. Local dealers say that melons, when only slightly tainted, are injurious to the health and should not be eaten. They are jammed together in great quantities and thrown about, which bruises the inside and the melon soon rots at the core and ferments. This fermentation produces a gas and when a hole is made in a melon, it blows out like soda water.

Weather Crop Bulletin.

The Pennsylvania state weather service for the week ending July 22d says the temperature during the week was above average and the rainfall below. Showers occur at various points, but they were local in character and in many cases not sufficient for present demands. Several sections are feeling the injurious effects of local drought. The harvesting of wheat rye and barley is about completed and haying well advanced. In most cases fair yields were obtained and owing to the fine weather the crops were secured in excellent condition. The oats harvest is in progress, and both quantity and quality are better than was anticipated. Quite a large acreage of buckwheat was put in and it now looks promising. Much pasturage is reported short, and the aftermath is making slow growth. Apples continue to fall badly in some localities but in others the prospect is fair for a good crop. There are some complaints of damages by grass hoppers.

Judge and Prisoner Changed Places.

A jury composed of the best men in the town of Perry, O. T., rendered a novel verdict. It was a case of drunkenness and disorderly conduct, and the verdict read as follows: "We find the defendant not guilty as charged, but we find the judge of this court guilty of the offense charged against the defendant, and that the costs in this case be assessed against him." Since this verdict was rendered the judge has been arrested for intoxication.

Church Dedicated at Hecla.

On Sunday Aug. 25th, Christ's Union church at Hecla will be dedicated to the service of God. Rev. Prue and other ministers will be present to assist at the dedication and every one is invited to attend.

REPORTS from the Indian country are to the effect that the Princeton students who went West on an exploring expedition are safe and well. Information is conflicting as to the hostilities between the settlers and the Bannock Indians, but there is an impression in well-informed circles in Washington that if the Indians have been guilty of any offending it is in the direction of violating the game laws of Wyoming, not wantonly, but to produce food in the course of their journey to the country of the Shoshones, their friends. One report says that seventeen Indians were taken prisoners, and that on their attempt to escape all were killed excepting a papoose. It is no wonder that the Indians are reported as being greatly incensed. When the facts are ascertained it may be found that the cowboy element is much more to blame than the Indians for the possibility of a serious outbreak among the redskins.

S.S.S. Heals Running Sores. Cures the Serpent's Sting.

CONTAGIOUS BLOOD POISON In all its stages completely eradicated by S. S. S. Obstinate sores and ulcers yield to its healing powers. It removes the poison and builds up the system. A valuable treatise on the disease and its treatment mailed free.

SWIFT SPECIFIC CO., Atlanta, Ga.

Fishing With Good Bait.

If the miners follow out the line of battle they planned yesterday they have reason to hope for more of a victory than they have ever yet won. The scheme to make two prices for mining, one for the colliery where the company store is carried on and a lower rate where the work is paid for in cash, is not wholly perfect in detail, but it will serve the purpose of putting the store on the defensive, where aggressive war counts. The operators who are not company store owners are forced to enlist on the side of the miners, and must prove a valuable ally, for they will see a chance to benefit themselves, while the diggers are benefited. If the store is not a profit maker it will close up. No harm will be done the operator if the store closes, for he will be the gainer of the cheaper price for digging his coal.

Should the operator refuse to close his store and pay cash to his men at the lower rate he confesses that he has a greater advantage in his store than the difference between the two rates, an advantage over cash payments. The prices favored are 69 cents where store orders are taken or 64 in cash. It is hardly a sufficient difference, being less than 8 per cent. An advantage of 8 per cent. is a big one when the operator goes to the market to sell his coal, but it is doubtful if the store does not give him a greater lead than that. However, the amount of difference and other details are of small consequence at the start. The principle is the important factor involved. If the miners follow the doctrine of discrimination in favor of cash they will see more money by all odds, and greater prosperity than they have known in years.

Protection for the Farmers.

The following law was enacted by the last Legislature, and not only protects farmers but city fruit growers:

Be it enacted, etc. That any person or persons who shall willfully enter or break down, through or over any field, orchard, garden or yard fence, hotbed or green house, or who shall wrongfully club, stone cut, break bark or otherwise mutilate or damage any field crop, nut, fruit or ornamental tree, shrub bush, plant or vine, trellis, arbor, hotbed, hot or greenhouse, or who shall trample, or in anywise injure any grain, grape vine, vegetable or other growing crop, or who shall willfully take or carry away any grain, corn, rye, wheat or any other field crop, fruit or vegetable, plants, nuts, berries, or any fruit or ornamental trees, vines or shrubs, whether the same be attached to the soil or not shall be subject to a penalty not exceeding fifty dollars for each and every offense.

Approved June 18, 1895.

DANIEL H. HASTINGS.

—Boys if you don't want to propose, take care where you put your arm, for an Alabama Judge has made a decision that is causing a great deal of consternation among unmarried men of the state. He holds that if a man puts his arm around the waist of a marriageable woman, it is prima facie evidence that he has proposed to her.

HER LETTER

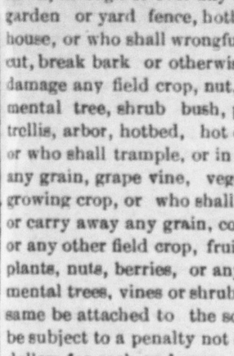
TELLS A WOMAN'S STORY.

Written for Eyes of Other Women.

[SPECIAL TO OUR LADY READERS.]

There is inestimable pleasure in doing good to others, and joy in a grateful recognition of the act.

On the old York Road, Huntington Park, Philadelphia, dwells Miss M. Downs, whose portrait we give. She desires that her case may be stated as a means of benefiting others. She says: "*Lydia E. Pinkham's* Vegetable Compound has cured me of Kidney trouble, painful menstruations, and headaches. It is truly a wonderful medicine. I cannot describe my feelings before I took it. The pain in my back was dreadful, and during menstruations the agony I suffered nearly drove me wild; and then my head would ache for a week, and now this is all over, thanks to your good remedy. I trust my testimonial will lead others to take it and be cured. They can find it at any drug store. Our druggist says the demand for it is very large, it is helping so many sickly women."



NEW DISCOVERY.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Crown Silver Tea Spoons *Free*, to every person who will send for one of our Terry's Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons.

Price of Silvereen set, $2.00. f7-2y.

TOLEDO SILVER CO, TOLEDO, O.

—Persons finding any goods or articles that have been lost on the public highways, must use every reasonable means to discover the owner by advertising the article found in order to restore it to him. Otherwise the finder becomes liable to action for larceny.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Hot :- Work

It is a pleasure to cook when the housewife has such dainties as can be found at the EUREKA GROCERY. The best flours, prepared food of all kinds, canned meats fish, etc.

Prices to suit the times. Call and see for yourself. Store on High street, next door to post office

E. C. TUTEN, Prop.

A Small Judicious Investment Often Brings a Fortune.

DEAR READERS:

We have heard from many of you during the brief period that our advertisement appeared in this space. Any others desiring full reports and statements can secure same by writing to us.

The further opening up of the South Central group of gold mines, and the erection of a Stamp Mill to reduce the company's ore to bullion, is a square, legitimate ure of capital.

1. Mr. Barry, formerly of Cripple Creek, the Bonanza gold camp of Colorado, sold his interests there, and bought the Morning Star gold mine, a producer in the vicinity of the South Central group.

2. Captain Plummer, formerly of the Granite Mountain mine, is now working the Delamar Mine, a large producer in the vicinity of the South Central group.

As the Granite Mountain (Gold and Silver Mining Co.) stock rose from about twelve cents a share to over $50 a share, and paid from 25 cents to 50 cents per share per month in dividends, under the superintendency of Captain Plummer, we consider him a pretty safe guide to follow in mining, and we invite you to participate in the investment.

Orders received within a reasonable time, on or accompanied by the following coupon [Mention this paper,] will be filled at

12 1-2 Cents a Share. Certain to advance and yield 10 to 10 fold, and over, on this price.

Very respectfully yours,

The South Central Consolidated Gold Mining and Milling Co.

Coupon. [STOCK ORDER FORM.] Coupon.

Fill in number of shares wanted, sign detach and forward this form to Treasurer South Central Consolidated Gold Mining and Milling Co., 712 & 713 National Bank of Commerce Bldg., St. Louis, Mo.

Send to me (or us) to address as below ..... Shares, of One Dollar each, full paid and non-assessable stock of THE SOUTH CENTRAL CONSOLIDATED GOLD MINING AND MILLING COMPANY, at 12 1-2 cents per share, to be payment in full for the stock, for which I will pay or remit on delivery.

NAME .....

TOWN ..... STATE .....

Please also send us the Names and Postoffice address of persons who have money to invest and who you think might like an opportunity to purchase some of this stock, and you will be doing them a favor.

AGENTS The wealth of the Consolidated Mines justifies the employment of stock-selling agents on very liberal terms. Application for agencies will receive prompt attention.

SCRIBNER'S MAGAZINE

AN IMPORTANT CLUB OFFER

The Bellefonte Republican Paper.

SCRIBNER'S MAGAZINE

-AND-

The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Living," in which he sets himself to solve, as far as such problems can be solved, questions which beset every well-to-do family: The Income—The dwelling—Household Expenses—Education of Children—Married and Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DON QUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be eleborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to the Publishers:

CHAS. SCRIBNER'S SONS,
155-137 Fifth Avenue, N. Y.

NEW DEVELOPEMENTS.

Workmen Who Were Digging in Chicago Unearth Some Bones.

Chicago, July 24.—There were several new and important developements in the Holmes case here to-day. In the first place a number of human bones were dug up by the laborers who had for several days past been excavating in the cellar at the house on the corner of Sixty-third and Wallace streets. The bones found were apparently part of the trunk of a female child. There were eighteen ribs, a number of vertebræ and a piece of much corroded bone which could not be assigned to any particular part of the body on account of being in an advanced state of decay, apparently from the action of some chemical. This bone, however, is supposed to be a portion of either a hip or a skull bone.

With the partial skeleton was found a piece of torn skirt or chemise which bore marks that may or may not prove to be human blood. The sleeves of this garment were too long for the arms of a child, and, although the opinion prevails that the bones are undoubtedly those of a female child, the gown would seem to warrant tha conclusion that they are part of the skeleton of a woman, the more so as it is well known that the bones of many women are little larger than those of children.

The bones found this morning are believed by the Central station detectives to be those of Gertrude Connor, the daughter of Mrs. J. L. Connor, who is now believed to have been one of Holmes's victims. Mother and daughter disappeared about the same time. The bones were found in a corner of the cellar. They were covered with quicklime, but were nevertheless in a fair state of preservation. All were as black as if carved out of ebony.

Here is a Chance for the Law.

North Scituate, Mass., July 24.—An attempt was made to blow up Konohassett hall last night while a religious meeting was in progress. The hall has been used for some time for a series of Evangelical meetings. It has been the custom of some of the rough element to go to the meetings and there have been disturbances. At times the offenders have been arrested taken before the court and fined.

Last night, while the meetings was in progress, a loud explosion startled the worshippers and caused a panic. No one was seriously hurt, however, but all the glass in the building was shattered, An examination showed that explosives had been put beneath a corner of the building and had shattered the woodwork in its immediate vicinity. It is thought dynamite was used and ignorance of how to place it saved a worse wreck and probably injury to many.

Another Suspect Identified.

Philadelphia, July 24.—Miss Davis the young lady who was murderously assaulted by a burglar, while the latter was robbing her brother's residence, at Atlantic City, two weeks ago, came to this city today and positively identified W. Brennan, alias "Reddy" Larkins, who was arrested several days ago, as her assailant.

Miss Davis is still suffering from the effects of her encounter with the robber. When taken into Brennan's cell she at once exclaimed, "That's the man; I am positive." The memory of her terrible experience was revived and she sank to the floor in hysterics. She was unable to appear at the hearing this afternoon and Brennan was committed to await a hearing on July 31.

Dick Yeager Killed.

Kennessey, Ok., July 24.—A posse of five deputy sheriffs led by Charles Allen, had a desperate fight yesterday afternoon with Dick Yeager, alias Zip Wyatt; Bill Doolin and Charley Black, three miles south of Sheridan, where the gang has been committing various depredations. Yeager was killed, Doolin shot through the hip, and Black through the arm. One of the officers named Huff was seriously wounded in the shoulder. Forty pounds of ammunition, five rifles and three colts revolvers were captured. The dead and wounded outlaws were brought here at 11 o'clock last night. Five more of the gang were arrested by United States marshal and taken to Guthrie jail.

Five Children Drowned.

Winnipeg, Man., July 24.—The five children of A. Berch, a farmer of the Lake Dauphine district, near Wionipeg, were drowned Monday. The children, ranging in age from 5 to 15 years, went to the lake shore to bathe. Finding an old boat they pushed out into the lake. A stiff breeze carried the boat out and a gale sprang up. The children had no oars and could not get back. The high waves filled the boat. The children hung on to the boat until exhausted, when one by one they let go and disappeared. The parents and several neighbors were witnesses of the drowning, but not having a boat were unable to go to the rescue.

Served His Time.

Easton, July 24.—Wallie Connors, one of the men who stole $4,000 from the Easton National bank a few years ago, was released from the Easton jail to-day after serving a sentence of three years and nine months. Connors left for New York, where his brother, who befriended him during his imprisonment, resides. Conners entered the vault of the bank while two confederates engaged the teller and a clerk in conversation. One of the confederates was J. Howard, alias Killoran, who walked out of the Ludlow street jail, New York, July 4, with two other prisoners.

SIX VERY STRONG MEN.

They Held Up An Express Train On a Western Road.

Toledo, O., July 24.—The west bound train on New York and Chicago express on the Lake Shore and Michigan Southern railway was held up by six masked men at 12.30 this morning at a lonely place in the woods known as Reece Siding, between Archibald and Stryker, O., about ten miles west of Wauseon. The train stops there to let the eastern express pass. The latter train was approaching when the robbery took place. The robbers were mounted and rode out of the woods, which are dense and close to the track. Conductor Darling, who was standing near one of the coaches, was ordered inside at the point of a revolver. Admission to the express car was obtained by the same means, and the messenger was forced to open the safe. The robbers were evidently entirely familiar with the train, and it is thought that employes of the railroad or the express company must be implicated either as principals or as confederates. It was undoubtedly known to the bandits that an unusually large sum was in the express safe last night. The amount reported to have been obtained by them is said to be $8,000, but it is believed that a much larger sum was taken. No attempt was made to molest the passengers, none of whom knew anything of the occurrence. When the thieves had secured the contents of the safe they rode quietly away. General Superintendent Conniff, Assistant Superintendent Blodgett and Chief Detective Robinson, with a party of detectives, left here immediately by special train. The country is being scoured for traces of the thieves. It is in the neighborhood of those dense woods at Reece siding, where the train stops unprotected, that highwaymen operated successfully last year and the year before. Large sums of money were secured both times.

Chicago, July 24.—The Lake Shore express train, which was held up and robbed at Reece station last night, arrived here this morning. The conductor and express messenger corroborate the story detailed in the Toledo dispatch. It is difficult to learn, however, how much money was taken by the robbers, and the officials are reticent on this point. The robbers failed to open the through safe, but took the contents of the way safe. Superintendent Wygant, of the United States Express company, says the robbers only got $150.

Italians Are Deluded.

Omaha, July 25.—There is great distress in the Italian colony here. Families are without food, many are sick and have no means of obtaining medicine. When the old street sweeping contract expired on July 1, an advertisement was printed in a local paper calling for 100 men to apply at a labor agency, where free transportation for work in Arkansas would be given. The Italians who answered this advertisement entered into an agreement to go to Siloam Springs, where it was guaranteed that railroad work was abundant at $1.35 a day.

The Italians put up $7 as a guarantee with the understanding that as soon as work was obtained an additional sum of $2 was to be paid to the labor agency. Upon arriving at their destination, which proved to be a deserted point on the prairies, the Italians found that no work was to be had. They then began walking towards this city. Twelve of them succeeded in getting as far as Kansas City, where friends advanced money for their fare here. The rest of them are still on the way.

Saved from a Mob.

Mexico, Mo., July 25.—To save Emmett Divers, a negro who assaulted and murdered Mrs. K. W. Cain, near Fulton, Sheriff Windsor took him across the country in a wagon and landed him in jail here yesterday.

The assault on Mrs. Cain was committed on Tuesday morning. She was 18 years of age and had been married two months. He husband found her body in the yard when he retnrned from his farm She had her hands tied behind her back, every stitch of clothing torn from her body and her throat cut from ear to ear.

Sheriff Windsor headed a posse, which arrested Divers, against whom much evidence was found. He was jailed at Fulton, but the sheriff learned that a mob was organizing to lynch him, and spirited him away in a wagon. As they were leaving Fulton the mob fired a volley of shots after the wagon, but no one was hit.

Where Free Traders Lead.

Snyder, N. S. W., July 25.—The general result of the elections held yesterday in New South Wales was the return of sixty-two free traders, forty protectionists and twenty-three members of the labor party. The latter will support Prime Minister Reid, who is thus assured of a majority. After the result had been declared, Prime Minister Reid made a speech, in which he declared that the election had struck a key note which would be responded to through out the world. It would be the signal for the sweeping away of all conservatism.

Waste Mills Burned.

Philadelphia, July 25.—Fire this evening destroyed the waste mill of William J. Lloyd, on Hancock street, and DeLaney & Co.'s glue and curled hair factory tonight. Delaney & Co.'s loss on stock and machinery is about $50,000, and Lloyd's loss on stock is about $50,000. The fire originated in a pile of waste in Lloy's place.

MADE A GOOD RUN.

The United States Cruiser New York Completes a Quick Voyage.

New York, July 25.—The United States cruiser New York arrived this morning, after an unusually quick voyage for a naval vessel. Allowing for difference in time she made the run in ten days, but from Sicily she was only eight and one-half days. The cruiser had unusually bad weather during the trip. At the worst of the blows, however, one of her officers said that she ploughed through the head seas at a gait of thirteen knots. The experience showed her to be an unusually weatherly boat. Coming down the English channel the New York was speeded for nine hours under the full power of her six boilers with natural draught. She was rather deep with the 1,300 tons of coal she had taken on and was down at the head somewhat from the weight of 300 tons of fresh water, but she reeled off eighteen knots easily, only 2.9 knots less than she made on her official trial trip with picked coal and forced draught. For the remainder of the voyage she made between 360 and 375 knots a day, using four boilers for the first five days after leaving the channel, and only three boilers for the rest of the trip.

Lieutenant Roper speaking to-day of the opening of the Baltic canal said: "It was the greatest display I ever saw and this ship seemed to excite more interest than any other, though there four English line of battle ships and three Italian men of war, of course larger and more powerful. With our white paint we doubtless presented a more brilliant appearance, but we represented the latest type and for all round service we stood first in the estimation of naval folks."

The New York is in good shape for any service she may be called upon to perform. Her bottom has not fouled perceptibly and she needs only coal to be ready for sea. She will probably be called upon for some naval reserve duty and then will participate in the manœuvers of the home squadron under Admiral Bunce.

Why Carlisle is Angry.

Washington, July 25. —Secretary Carlisle is very much provoked at the appearance in a Richmond, Va., paper of what purports to be an interview with him, in which he is reported to have talked freely on political matters and declared among other things that President Cleveland would not be a "willing candidate" for a third term, and that he (the secretary) did "not want" the nomination.

Secretary Carlisle declines to discuss the accuracy of the statement made therein, but it is learned that on Sunday last Mr. W. F. Ryan, collector of internal revenue for the Second district of Virginia, and also editor of the the Richmond State, called on Mr. Carlisle at his residence here and the two had a long talk on general and political subjects. Mr. Ryan, it is stated, called presumably in his official capacity and what was said by Secretary Carlisle to him was said in confidence between officials of the same political party and administration.

"Things are coming to a pretty pass," said an official to-day, close to Secretary Carlisle, "when the secretary cannot talk to one of his own trusted subordinates without having it appear in the newspapers in garbled form."

It is stated that Mr. Ryan took no notes and wrote two days afterward from his recollection and impression of what Secretary Carlisle said, but the published statement puts the latter's words in quotation marks.

A Mob's Systematic Work.

Meredian, Miss., July 25.—Tom Johnson, the negro who murdered Mrs. Hatfield and her daughter and raped her other daughter at Hattiesburg, was captured yesterday at Ellisville and carried back to Hattiesburg and placed in jail. Last night a crowd of determined citizens went to the jail and demanded the prisoner and on being refused by the sheriff knocked a hole through the wall and broke open about seven locks before they reached the negro's cell. When the mob arrived at his door he showed fight, having secured a crow bar, and had to be shot several times before the mob could get hold of him. He was carried out to the scene of his crime, which is about fourteen miles from Carriesburg, waved identification and if he proves to be the right party it is certain that he will be lynched and there is talk of burning him at the stake.

The Case of Durant.

San Francisco, July 25.—When the Durant case was resumed before Judge Murphy this morning, District Attorney Barnes read a number of affidavits made by prominent citizens and detective officers to the effect that there was no prejudice in the public mind with regard to Durant which would prevent him from obtaining a fair trial by a jury. Judge Murphy, at the conclusion of the reading of the affidavits, denied the motion for present time, but would give the defendant leave to renew later if his attorneys deemed it necessary.

—It has been stated in a number of newspapers that a bill was passed at the last session of the legislature granting a pension at the rate of one cent a day for the time served to old soldiers who served in the State militia for at least ninety days during the late war, and who are not pensionable under the General Government. Such a bill was before the legislature but did not pass.

The Man Identified.

H. H. Osman, Justice of the Peace at Port Matilda, was a delegate to the Centre County Republican convention Tuesday, and stated that the Port Matilda skeleton mystery had been about cleared up. To substantiate what he said he produced the entire correspondence between himself and the relatives and friends interested.

The body of the man found at that place last fall has been identified as that of J. H. Garman, of Fulton, Caloway county, Mo. He left on August 3, 1893, to visit friends in Dauphin and Lancaster counties, and never had been heard of until through 'Squire H. H. Osman who afterwards sent the dead man's clothes to his son, J. H. Osman, in Mo., for identification. The deceased has living two sons and one daughter: John Garman, of Fulton, Mo.; Jacob, living in Springfield, Ill., and Mrs. Anna Hoover, of McCredie, Mo. The identification of the clothes by the children seems to clear up all the mystery that has been associated with this case, and 'Squire Osman deserves credit for being so persevering in his efforts to make plain what was so obscure.

Special Days at Campmeeting.

Specials programs have been set aside for the Newton Hamilton campmeeting, as follows:

Thursday, Aug. 15th 10 a. m. Woman's Foreign Missionary Society.

Friday, Aug. 16th, 10 a. m., Woman' Home Missionary Society.

Saturday, Aug. 17th, 10 a. m., Grand Army.

Monday, Aug. 19th, 10 a. m. Gospel Temperance.

Tuesday, Aug. 20th, 10 a. m., Communion.

Wednesday, Aug. 21st 10 a. m., Epworth League.

Thursday, August 22d, Jubilee Day.

Special speakers will make addresses at each one of these meetings.

MR. GLADSTONE has just been reading the life of Sonya Kovalevsky, which is published in this country by The Century Co. He was much impressed with the book, and has written as follows to Mr. Fisher Unwin, the London publisher:

"The Biography has also reached me, and at once beginning to peruse it, I have found it a volume of extraordinary interest. It is, in itself, a large chapter of human psychology, with something of heredity included. The two works [Sonya Kovalevsky's 'Recollection of Childhood,' and the "Biography" by the Duchess of Canjanello published in one volume] also present a great deal of salutary warning."

—We understand that Register George Washington Ramberger has received a very flattering offer from the New York ball club to play short for them the remainder of the season. We are glad that ability is about to be recognized at last. Pitcher Hunter will likely sign with the Orioles as soon as his glass arm becomes flexible.

REMEMBER there are hundreds of brands of White Lead (so called) on the market that are not White Lead, composed largely of Barytes and other cheap materials. But the number of brands of genuine

Strictly Pure White Lead

is limited. The following brands are standard "Old Dutch" process, and just as good as they were when you or your father were boys:

"Armstrong & McKelvy,"
"Beymer-Bauman,"
"Davis-Chambers,"
"Fahnestock."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors, a one-pound can to a 25-pound keg of Lead and mix your own paints. Saves time and annoyance in matching shades, and insures the best paint that it is possible to put on wood.

Send us a postal card and get our book on paints and color-card, free; it will probably save you a good many dollars.

REPUBLICAN COUNTY TICKET.

FOR PROTHONOTARY,
ABRAM V. MILLER,
of College Twp.

FOR DISTRICT ATTORNEY,
HENRY C. QUIGLEY,
of Bellefonte.

Our Candidates.

The Republican county convention last week, when it so unanimously endorsed Gov. Hastings and his administration, did as equally well in its selection of candidates as the party standard-bearers at the coming fall election. In the nomination of

A. V. MILLER, FOR PROTHONOTARY,

the Republicans displayed that true genuine spirit of giving just and due recognition to a man who has long been a hard worker in the Republican ranks. A republican from childhood—republican in principle as well as doctrine—he has never stood up for the Grand Old Party and its success, and no man can ever say he ever shirked a duty necessary for him to perform. In addition to his party record, he is a clean man clear through, and has a record as a soldier that should entitle him to the support of not alone the old soldiers in the county, but of every patriotic citizen and voter in old Centre. Mr. Miller has never before this been before the voters of this county asking anything, and now when he does come he should receive most loyal support, and we have not the least doubt but that he will. It will only be a proper recognition of true greatness and worth.

H. C. QUIGLEY FOR DISTRICT ATTORNEY,

is the other candidate, and, although yet a young man, has been associated so much in public life, that he is well known all over the county; and wherever he is knownf it is almost superfluous to tell of his adaptability for the office for which he has been nominated. A close and thorough student, he is well versed in all points of law, and should he be elected, which we believe he will, the citizens of Centre county will have a man to represent them in the quarter sessions courts who will be a credit to himself and an honor to the voters who put him there. And, mark the prediction, when the votes are counted next November we expect to see both Miller and Quigley elected by good, big majorities.

State Game Commission.

Governor Hastings has approved the bill providing for the appointment of game commissions, defining their duties and empowering them to appoint game protectors. He is authorized to appoint six competent citizens, no two of which shall be from the same Senatorial district. They shall receive no compensation for their service.

It is provided that the board shall have an office at the Capitol and shall hold meetings upon the first Thursday of January and July and at such other times and places within the State as the commissioners shall fix to transact business. It is made the duty of the board to protect and preserve the game, song and insecticeous birds and mammals of the State, and to enforce the laws relating to the same. These commissioners are also given the power to appoint ten game protectors, one of whom shall be designated chief protector, and shall have the direction, supervision and control of the other protectors. He shall also be secretary of the Board and shall occupy as his permanent headquarters the room assigned to the commissioners at the Capitol. Each of the protectors shall receive for the use of the Board one half of the fines and penalties collected in actions brought upon informations made by him after all the expenses in recovering said fines and penalties shall have been paid.

Section four provides that the protectors shall hold office at the pleasure of the Board. It is further provided that no commissioner, protector or other officer authorized by the act shall claim or receive any compensation for his services or for expenses incurred in the discharge of his duties.

For Well People.

Most medicines are for the sick. Some can be used with good effects by persons apparently well. Occasional resort to Ripans Tabules prevent attacks that result from disorders of the stomach and liver. To preserve is better and cheaper than to repair.

WEEKLY FINANCIAL REVIEW

From our Regular Correspondent.

NEW YORK, July 27, 1895.

Midsummer dullness prevails on the Stock Exchange. Some activity was displayed in the Industrials, with which the professionals keep on their entertaining game of battledoor and shuttlecock; but the railroad list was comparatively neglected, and in spite of the many favorable conditions there was only moderate buying except to cover the short contracts put out by a few venturesome traders.

The present inactivity can be attributed to several causes. In the first place the artifical condition of the exchange market and the attendant possibility of gold exports inevitably check outside buying. It makes little difference that the well-informed feel comparatively unconcerned about gold exports, so long as the average investor and speculator feel uneasy and hold aloof from the market on that account. Nor is this the principal reason for uncertainty. The critical period for the crops has not quite passed, and confidence has no sure foundation to build upon until the harvest is absolutely a certainty. Then, too, Europe seems backward for the moment in taking any except our best securities. The foreign demand has not by any means been satisfied; but the markets over there have been unsettled by possibilities connected with the Bulgarian difficulties, and there is still remaining some distrust in England and Germany concerning our national finances; a fear that our political jealousies will delay currency reform to a disturbing degree. Finally, the restless attitude of labor threatens the peaceful progress of the industrial future; for many workmen are demanding a restoration of wages out of all proportion to the improvement of their employers' position, until the latter are often embarrassed by such uncertainties.

These are the conditions which account for the present dull condition of the Stock Market. How ensue, only time will determine. The general trend of affairs is strongly toward improvement, and the Stock Market will certainly anticipate the future when the time for action is considered ripe by the large capitalists and operators who have been so much at stake in the reorganization schemes now in progress. When the coal trade and trunk line difficulties are settled, and when the financial status of Northern Pacific, Reading, Erie and other like properties is restored, then the market will be free to respond to the effects of a big corn crop, the industrial revival and better railroad earnings. Important developments in these quarters may be expected almost any day; but while uncertainty lasts no boom rise can be established.

The outlook for the future is promising, and eventually we look for a higher market, but present operations need to be conducted with more or less caution.

Four days more will bring up to the date of August 1st, when the corn crop will have about passed any serious exposure to danger, especially such as occured last year. The damage then was from drouth, which almost cut the crop in two. The cause of damage which occurred last year commenced in the middle of July, and ten days thereafter this country suffered an aggregate loss of at least $300,000,000. From the present outlook this year's corn yield will be the biggest on record by several hundred million bushels, in which event it will bring an amount of prosperity to the country that will gladden the hearts of almost everybody. The present swing of good business in all directions will then have a basis for its continuance until the result of next year's crop is ascertained. The crops of this country each year are the measure of our prosperity

A member of our firm has just returned from an extensive western trip, including the corn belt, and reports that "The corn crop could hardly be in better shape than it is at present. There have been numerous rains of late and sufficient moisture is now in the ground to obviate the likelihood of any damage by the hot winds to be looked for at this time of the year. The corn is full of vitality and about three weeks ahead of the season, which considerably lessens the probability of damage by early frost. Farmers are jubilant and the railroad people say they will not have cars enough to carry the corn out of the country if present prospects continue. There is any number of well informed people in the West who are looking for a 2,400,000,000 corn crop."

In connection with the advance in securities generally, which has been quite considerable within a few months, the general and erroneous opinion entertained is that the established high quotations of the various properties dealt in on the New York Stock Exchange are based solely upon the increased intrinsic value consequent upon improved earnings. While it is partially attributable to that cause, it is more largely due to the changed value of money, not only in this country but all over the world. It now takes a million dollars to produce the same income which was formally derived from $500,000 through sound investments or temporary loans. Money has really been displaced in connection with business undertakings by the use of credits based upon increased confidence. This has caused an accumulation of money at all the great centres, which is now awaiting investment, and new investment properties of a solid character have not been created to any great extent during the past five years, since the Baring panic in 1890. The competition for sound investments where the principal is absolutely safe has been so keen as to absorb all this class of securities.

The difficulty in making good investments both here and in Europe is now perplexing those who have a large surplus of funds on hand. This condition of affairs prevails in New York, London, Paris, Berlin, Amsterdam, and all the other money centres, and is likely to continue until some new and safe means are devised for profitably employing capital.

[Here is a point to consider in this last statement of Mr. Clews, as to the difficulty of finding profitable investment for money. The use in the value of gold money has reduced in number of dollars the value of every bit of real estate and other property in the country, so that there is less chance, by many millions of dollars, for the placing of mortgages. Farms in this county, that were worth a few years ago twenty thousand dollars, could not be sold to-day for over seven thousand. Then a mortgage on them for ten thousand would have been considered a safe investment; now it would be more than the entire farm is worth. Does not this question of a high priced money reach more people than just those who are poor or in debt?—ED.]

HENRY CLEWS.

What a New Act Does.

Says the Pittsburg Times: An act of the last legislature, which is of interest to constables, seems to have been overlooked during the bustle at the close of the session, and yesterday, when it was found in the state reports by Attorney H. M. Scott, its provisions caused surprise among ward officers. It provides that on the third Tuesday of February, 1896, and triennially thereafter, the electors of every township and borough, and where the boroughs are divided into wards, of every ward, shall vote for and elect a properly qualified person for constable in each of the said districts, and a properly qualified person for high constable in each of the said boroughs, and the persons so elected shall serve for three years.

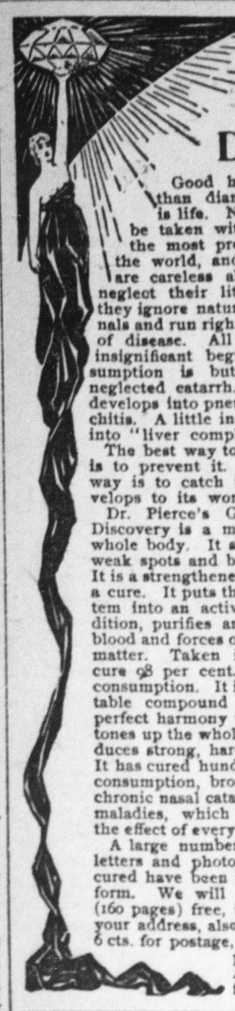
The constables all over the state were elected for three years last February. Previous legislation had done away with the high constables. Now the constables will, apparently, have to run again for their offices next February.

It will not cure everything. It is not claimed that it will cure but one complaint, that is, dyspepsia. We cannot say that it will cure every case of dyspepsia, but, it will cure a large majority of them. Such cases as are adapted to its use will derive immediate benefit. One small bottle be sufficient to test it.

The Shaker Digestive Cordial is especially adapted for emaciated or elderly people whose food does them but little or no good because it is not digested. The Cordial contains an artificially-digested food and is a digester of food happily combined. Read one of the little books which your druggist is now giving away and learn of this wonderful remedy.

A really palatable Castor Oil can now be had under the name of Laxol.

—We walk here, as it were, in the crypts of life; at times, from the great cathedral above us, we can hear the organ and the chanting choir; we see the light streaming through the open door, when some friend goes up before us; and shall we fear to mount the narrow staircase of the grave that leads us out of this uncertain twilight into life eternal?—Longfellow.



BETTER THAN DIAMONDS.

Good health is better than diamonds. Health is life. No pleasure can be taken without it. It is the most precious thing in the world, and many people are careless about it. They neglect their little ailments—they ignore nature's danger signals and run right onto the rocks of disease. All diseases have insignificant beginnings. Consumption is but the fruit of neglected catarrh. A slight cold develops into pneumonia or bronchitis. A little indigestion grows into "liver complaint."

The best way to cure a disease is to prevent it. The next best way is to catch it before it develops to its worst stage.

Dr. Pierce's Golden Medical Discovery is a medicine for the whole body. It searches out the weak spots and builds them up. It is a strengthener, a purifier and a cure. It puts the digestive system into an active, healthy condition, purifies and enriches the blood and forces out all poisonous matter. Taken in time, it will cure 98 per cent. of all cases of consumption. It is a purely vegetable compound that works in perfect harmony with nature. It tones up the whole body and produces strong, hard, healthy flesh. It has cured hundreds of cases of consumption, bronchitis, asthma, chronic nasal catarrh and kindred maladies, which had withstood the effect of every other medicine.

A large number of testimonial letters and photographs of those cured have been printed in book form. We will send the book (160 pages) free, if you will send your address, also this notice and 6 cts. for postage, to World's Dispensary Medical Association, Buffalo, N. Y.

EXECUTORS NOTICE.—LETTERS TESTamentary upon the estate of Mrs. E. J. Wilson late of Stormstown, Centre County, Pa., having been issued to the undersigned, all persons knowing themselves indebted to said estate are hereby notified to make immediate payment, and those having claims against the same to present them duly authenticated for settlement.

R. A. WILSON, Executor,
6-13-6t Tyrone, Blair County, Pa.

ESTATE OF JOHN FETZER, DECEASED. Letters of administration on the estate of John Fetzer, late of Boggs township, Centre County, Pennsylvania, deceased, have been granted to Clement Dale, residing in Bellefonte Borough, to whom all persons indebted to said estate are requested to make payment, and those having claims and demands will make known the same without delay.

CLEMENT DALE,
5-18-6t Administrator.

Rose L. Pierce, vs. O. L. Schoonover. In the Court of Common Pleas of Centre County, No. 337 April Term, 1886. In equity.

The undersigned master appointed by said Court to hear and pass upon the exceptions filed to account and ascertain the balance due O. L. Schoonover under decree of Court heretofore made, will meet, for the purpose of his appointment, all parties in interest at his office in the borough of Bellefonte on Thursday, the 1st day of August, 1895, at 10 a. m. Parties interested will please take notice. JOHN KLINE,
7-11-3t Master.

ORPHAN'S COURT SALE.—BY VIRTUE of an order issued out of the Orphan's Court, of Centre County, there will be exposed to public sale, in Walker township, upon the premises of Catherine Gates, about two miles south of Hublersburg, Thursday, August 22nd, 1895, at 1 p. m., the following described real estate, late the property of Catherine Gates d'c'd, all that certain messuage, tenement and tract of land situated in township aforesaid, bounded on the North by lands of Joseph Emerick, on the East by Adam Decker and Markle heirs, on the South by Isaac Markle and on the West by Henry Brown and Joseph Emerick. Containing 30 acres 144 perches, the same being in good state of cultivation. Thereon erected a frame Dwelling House, Barn and other out buildings, good fruit and an excellent supply of spring water.

Terms of sale: One-half of purchase money to be paid on confirmation of sale, and balance in one year, with interest, to be secured with bond and mortgage on the premises.

W. G. RUNKLE, Att'y. MARY E. HILL, Administratrix.
Bellefonte, Pa. al-3t

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

WHAT
IRON
WILL DO.

IRON
IS NATURE'S OWN TONIC.
Stimulates the appetite and produces refreshing sleep.
GIVES VITAL STRENGTH TO NURSING MOTHERS.
Checks wasting diseases, stops night sweats, cures incipient consumption.
Increases strength and flesh.
MAKES RED, RICH BLOOD,
Promotes healthy lung tissue.
Will give the pale and puny the rosy cheeks of youth.
CURES ALL FEMALE COMPLAINTS.
Makes strong men and women of weaklings.

GILMORE'S IRON TONIC PILLS
Cure all Wasting Diseases and their sequences,
BRONCHITIS, CONSUMPTION, &c.
They are neither styptic nor caustic, and have no coagulating effect on the contents of the stomach or its lining; consequently do not hurt the teeth or cause constipation or diarrhœa, as do the usual forms of Iron. 10 days treatment 50c, pamphlet free. If not kept by your druggist, address
GILMORE & CO.,
CINCINNATI, O.

Curative Properties of Petroleum.

The Pittsburg Times in an article on petroleum says it was first sold in Pittsburg as a medicine, by Samuel M. Kier & Co., at 363 Liberty street, in 1840, and a wonderful cure it was, according to one of their circulars: "The lame, through its instrumentality, were made to walk—the blind to see. Those who had suffered for years under the torturing pains of rheumatism, gout and neuralgia, were restored to health and usefulness. Several who were blind have been made to see, the evidence of which will be placed before you. No marvel that Indians worshipped it. When the French reached Oil creek in the middle of the last century, they were invited to a point where a small stream entered the river. The tribe appeared unusually solemn. Then they marched a half league up the river, where the war chief told of the heroism of their ancestors. A thick scum was on the stream, which at the touch of a torch flashed into a flame, whereat the Indians gave a shout. "Here then," says the French chronicler, "is revived the ancient fireworship of the East; here, then, are the children of the sun." The curative properties of petroleum are well known now, and it is not surprising that half a century ago they were exaggerated.

"Sweet the Pleasure"

"Sweet is pleasure after pain" says Dryden, while Young tells us that "A man of pleasure, is a man of pains." Possibly so, no doubt, a man must sometimes take pains if he would secure pleasure. But when pain takes the man there is no pleasure for him. If he wants pleasure let him take pains to get Dr. Pierce's Golden Medical Discovery. It is a certain cure for all diseases of the blood and skin. It should be tried by all afflicted with tetter, salt rheum, scald head, St. Anthony's fire-erysipelas, ring-worms, pimples, blotches, spots, eruption, boils, carbuncles, sore eyes rough skin, scrofula sores, swellings, blood taints, affection of the skin, throat and bones, ulcers of the liver, stomach, kidney, and lungs. Purify the blood, and health will return. 8-1-1t

An Unromantic History.

The old mail coach used by Pawnee Bill in his parade and show excited awe and astonishment, with a grasping wound in its side, supposed to have been done by the bad, big injun of the wild west. The Harrisburg Call now says that the coach was formerly used on the stage route between Newport, Perry county, and Landisburg. It was bought by the Rice Bros., or their father in the year 1861 from a man in Northumberland for the sum of $200, whose name was Knapp and was sold to Paynee Bill some three years ago by Mr. Rice. The wound in the side was made by having an upset while running on the above mentioned route.

Floor Stain and Disinfectant.

A simple method of staining floor is to use permanganate of potash. It not only stains the floor a lasting brown color, but it acts as a purifier and disinfectant as well. Use an ounce of the crystals to a gallon of boiling water, stirring well, lay on quickly with a large, flat painter's brush, working with the grain of the wood but never across it. To protect the hands a pair of rubber or heavy gloves should be used; stains, however, may be removed from the flesh by the use of lemon juice.

Unconstitutional.

Last week Judge Gordon decided that the law compelling the county to pay the cost of keeping paupers without fixed residences in the various districts was unconstitutional. So hereafter or until the county takes charge of the poor the different districts will have to take care of all of these poor who may fall on their hands. Heretofore the county has been obliged to pay hundreds of dollars to the various poor districts for the maintenance of the itinerant poor.—Clearfield Spirit.

What Shall I Do?
Is the earnest, almost agonizing cry of weak, tired, nervous women, and crowded, overworked, struggling men. Slight difficulties, ordinary cares, household work or daily labor, magnify themselves into seemingly impassable mountains.
This is simply because the nerves are weak, the bodily organs debilitated, and they do not
Take
proper nourishment. Feed the nerves, organs and tissues on rich red blood, and how soon the glow of health comes to the pale cheeks, firmness to the unsteady hand, and strength to the faltering limb.
Hood's Sarsaparilla
purifies, vitalizes and enriches the blood and is the best friend to unfortunate humanity. Be sure to get Hood's and only Hood's. All druggists. $1; six for $5.
Hood's Pills the after-dinner pill and family cathartic. 25c.

One 25c Ticket Admits to All.
Two grand and novel performances each day. Doors open at 1 and 7 o'clock. Tournament at 2 and 8 o'clock.

The Mount Gretna Exposition.

The Mount Gretna agricultural, mechanical and industrial exposition will be held the third week in August at Mount Gretna park, in Lebanon county, Pa. The location is well known to the traveling men in this territory, and is regarded as ideal. It is in the centre of the agricultural belt of eastern and middle Pennsylvania, as well as the centre of the wealth and population of the state.

Mount Gretna is a magnificent domain, covering an area of 5,000 acres, situated in the heart of one of the highest mountains in eastern Pennsylvania.

The Pennsylvania Chatauqua and the United Brethren church are permanently located there, and the State Teachers' association of Pennsylvania has held its annual convention there this year. The Third Brigade of the National Guard of Pennsylvania has just spent the closing week there in camp, and will be followed in three weeks later by the exposition. Although this is the sixth annual exposition, no personal effort has been made in the past to get western manufacturers to exhibit. It is true that a number of western manufacturers have made exhibits, but they were induced to do so by correspondence. This year the manager spent three weeks in soliciting exhibits from manufacturers in Cleveland, Toledo, Detroit, Ann Arbor, Jackson, Battle Creek, Kalamazoo, Grand Rapids, Elkhart, South Bend, Fort Wayne, Richmond, also Cincinnati, Dayton, Springfield and Columbus, and has returned with a large number of new applications for space. The old exhibitors have also secured their usual spaces, and so great is the demand for space that the management are contemplating building additional platforms.

A new building, 122x144 feet, is being erected for the exhibition of carriages, harness, etc. This building has 12,000 square feet of space, and it is nearly all rented. Buggies, phaetons and surreys of all sizes, styles and descriptions will be exhibited. There will be an exhibit of carriages as has not been seen in the east since the centennial.

Arrangements have been made to induce the dealers of Pennsylvania and adjoining states to be present this year in larger numbers than in the past. Positive assurances have been received already from a large number of manufacturers who will be there. Apart from much business that will be bound to result from such a meeting, it will be pleasant for an old manufacturer to meet an old dealer for the first time, and that meeting in so pleasant a place as Mount Gretna, and at an exposition where the most modern agricultural implements are exhibited. How pleasant to compare the implements of thirty, twenty or even ten years ago with the implements of the present day.

The sole object and aim of the management is to make the Mount Gretna exposition of as much value and importance to the manufacturer and dealer, who transact business in the east, as the St. Louis fair is to the west.

Their efforts in this direction this year will surprise the most sanguine, and we wish this most worthy enterprise the success it deserves.

The Cuban Rebellion.

It is difficult to get accurate reports of the many skirmishes and battles fought in Cuba between the Spanish troops and the Cuban revolutionists, but it must be evident to all that the rebellion is stronger to-day than it has been at any time since the present revolt began, and it is more formidable than any rebellion of the past.

The General Campos, the leader of the Spanish forces, has suffered disastrous defeat in an aggressive campaign against Maceo, the leader of the insurgents, can no longer be disputed, and the success of the revolutionists has certainly been rapidly spreading the revolt amongst the Cuban people during the last few months.

The only possible hopes of maintaining Spanish ascendency in Cuba is in sending an army of notless than 20,000 well equipped troops into Cuba for winter operations but even then the difficulty would be that the insurgents can elude them in their places of retreat and delay them until another summer comes, when disease would be certain to be much more deadly for the Spanish forces than all the battles they could fight.

Whether Spain is able to meet this great strain upon her is questionable, but unless she can send sufficient forces to overrun the entire country and hold it, Cuban independence may be regarded as in the near future.

Deafness Cannot be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

REDUCED RATES TO THE SEA SHORE

Over the Lewisburg and Tyrone Railroad.

The Pennsylvania Railroad will run a special coach on the Lewisburg and Tyrone railroad Thursdays, August 1 and 15, to the Sea Shore. Tickets will be sold from Bellefonte at the remarkable low price of $5.75 for the round trip, good going to Philadelphia only on trains leaving Bellefonte at 6.20 a. m. and 2.15 p. m., and will be good for return passage within ten days. Passengers may use any train from Philadelphia to the Sea Shore, to Atlantic City, Cape May, Sea Island City, Ocean City, Avalon, Anglesea, Wildwood and Holly Beach, on day of excursion or following day. Tickets will be good to stop off at Philadelphia on return trip within limit.

Nothing to Compromise.

The Quay-Cameron bureau sent out a fraudulent story yesterday that the State Administration leaders were seeking a compromise of the factional war which is being made on Governor Hastings. The story is both ridiculous and false. It is obvious enough from these stories coming from that quarter that Senator Quay is willing to withdraw, but he wants to save something by the withdrawal of Chairman Gilkeson also. As no reason whatever has been given the Republicans of the State why Mr. Gilkeson should not be re-elected to the chairmanship of the State Committee, there is no reason, of course, why he should be expected to withdraw from a contest which he did not create, but which he has already won. Mr. Gilkeson would have been elected without opposition, and to the very general satisfaction, had it not been for Senator Quay's ill-advised purpose to do something to "teach Hastings a lesson" for his support of the apportionment bills. That effort has succeeded in nothing but party disturbances which sooner or later Senator Quay will acknowledge to be a mistake. There is nothing that can be compromised. The Quay supporters may talk about it, but the more sensible thing for them is to own their defeat.—Phila. *Press.*

Horses and Shade Trees.

It is an offense against the ordinances of the borough to break, injure or destroy any tree or trees, or boxes enclosing same, or to tie horses or other animals to such tree or tree boxes. These offences are punishable by fines commensurate with the infraction of the law.

Many of our people take pride and pleasure in beautifying their properties by planting and caring for trees along the streets and avenues, and drivers should be considerate enough to keep their animals from the shade trees which they are so likely to injure or destroy. The plan of using hitching weights is the best solution to the problem of what shall be done with horses that must be kept standing along the streets.

Woman's Logic.

Over all that we see, as it seemeth to be,
Is the truth that we cannot reach;
I tell it to you, you tell it to me—
And both of us nod. You teach,
I preach—and firmly we all believe,
For all of us know it is so,
But you it would grieve and me it would grieve
To reason out how we know,
Yet we know that we know, we are strong that were weak,
And facts prove the falsehood of fiction;
Dr. Pierce made us whole, made us new, so to speak,
With his own and our "Favorite Prescription."

A peculiar medicine for woman's peculiar ills. For all "Female Weaknesses," irregularities, periodical pains it is the only guaranteed remedy. 8-1-1t

THE time-honored method of preventing a dog from going mad in August is to kill him in July, and there are still a few more days left in which to carry out the rule. But the dog days should not be so trying to any one during August, the dogs excepted, of course. Hydrophobia comes as often by imagination as by bites. The medal on Caesar's neck is just as useful to the public health. Dog days are an invention of the calendar merely as a specification of certain astronomical relations of Sirius, a reason in which sultry and humid weather is apt to prevail. But it appears on the records that dogs take to rabies just as much in January as in July, and they also take to people all the year through who fail to let them alone.

THE Chicago Police, added by the Chicago reporters, seem determined that their city shall enjoy the greatest distinction in the Holmes case. Not content with finding the bones of Minnie Williams in the cellar of his house, they have now found her full articulated skeleton, kept by a man who was not paid by Holmes for setting up the skeletons of some of his other victims! "There is something too much of this," even in the summer season and in the absence of the sea serpent.

That those draw social lines closest who ought not be within them themselves.

Observations.

The gold pen's diamond tip is not often equaled by the brilliancy of the text.

Reduced circumstances are the kind that alter cases of large head.

Money makes the mare go, but the swell turnout runs away with the money.

Crumbs of comfort never fall from the cooking school bread.

The first end is the small boy's cud of discontent.

It is not pleasant reading between the hard lines of fate.

That "living pictures" at the seaside now take the place of those at the music hall.

ATTACK ON THE MISSIONS.

News Brought from China by the Empress of India.

Vancouver, B. C., July 25.—The steamship Empress of India, from Hong Kong, brings news of the attack made on the foreign missions in China a few weeks ago. The Chunk King correspondent of the North China Daily News tells the story as follows:

"A riot occurred at the premises of the Canadian Methodist mission, their hospital, dispensary and chapel being looted and burned. Although the mob was kept at bay for an hour or two, and although the yamen were near and the soldiers' barracks were about five minutes' walk away, no attention was paid to the request for assistance. After resting for the night the mob began again, next day, and, when the day was ended, nothing remained of the eleven places of worship of Protestant and Roman Catholic missions.

"In every case the officials made a mere pretense of protection or flatly refused. All took their cue from viceroy, who has been degraded and seemed to think nothing worse could befall him. His inhospitality to foreigners has been notorious for several years, and he seems to have intended to give a parting hit as he was about to leave. Even when the flames were bursting out of the premises of the Roman Catholic mission, a stone's throw away, he did not lift a finger to help, merely remarking that this was a calamity for his successors to attend to. Mothers, with their little ones, climbed over back walls and hid for hours in the dirtiest holes. When discovered, there were cases where ransoms were paid by both foreigners and native Christians."

There were cases of flight from one mission to another, only to be mobbed and compelled to flee again. The members of the American Methodist Episcopal mission climbed over the wall to a neighbor, and remained twelve hours in a dirty little loft watching the destruction of their property.

Some of the Canadian Methodist missionaries, who sought protection at the soldiers' barracks, were driven out, one of the women, with her little ones, being kicked by the brutal soldiers.

Here is a Mixture.

Reading, Pa., July 25.—Samuel N. Potteiger brought suit for the Schuylkill Valley bank against George F. Lauer to recover $30,000 which Mr. Lauer obtained from the bank on notes, falling due June 1. Philip Seiber brought a similar suit for the Penn National bank to realize on notes valued at $9,500, that are also falling due June 1. The banks desire to realize on their judgments and bring the suits in order to determine at what figure they will have to sell the collateral which consists of mortgage on all the real estate owned by Mr. Lauer and an assignment of his entire stock in the Lauer Brewing company, limited.

Trouble About Bloomers.

Chicago, July 25.—Georgie Montgomery, a pretty blonde of 19, wanted a bloomer suit, so she called on Tailor Morris Taub, who is alderman, too. The bloomers were finished yesterday and Miss Montgomery went to the tailor shop to try them on. Taub assisted her and she had not proceeded far before she gave the tailor a box on the ear. Then she went home and complained to her uncle, Henry Brady, about the tailor. Brady went to Taub's shop and knocked him down twice. The tailor swore out a warrant for assault against Brady and larceny against the girl. She took the bloomers.

Will Raise No Legal Dispute.

Johnstown, Pa., July 26.—The Sisters of St. Joseph although urged by directors and patrons of the schools at Gallitzin and Lilly to accept positions as teachers in the schools and test the constitutionality of the garb bill, persistently decline to do so, giving as a reason that they will not violate a law of the state, however unjust or unconstitutional they may regard it, and as a consequence, the schools in these places will be filled by lay teachers. It will be remembered the Gallitzin school case, in which the American Mechanics secured an injunction restraining the employment of the Sisters of St. Joseph as teachers, led to the enactment of the garb bill in the last legislature.

Settlers Reported Murdered.

Pocatello, Idaho, July 26.—A courier who arrived at Market Lane, Idaho, this evening, reports that all the settlers in Jackson's Hole have been murdered by Indians and all the houses burned. He could give no particulars of the alleged massacre, but said that a companion had a tempted to reach the scene of the trouble and if he escaped the Indians he would undoubtedly reach Market Lake within twenty-four hours with details of the fight. Further news from Jackson's Hole is awaited with anxiety.

Broke His Ankle.

Atlantic City, N. J., July 25.—Frank Barksdale, advertising agent of the Pennsylvania Railroad company, while trying to board a moving train at the station tonight, fell and broke his ankle. Mr. Barksdale was taken to a hotel and everything done to make him comfortable. Mr. Barksdale is one of the best known and most popular railroad men in the country, and has an especially wide acquaintance among newspaper writers.

Coin's Financial School, the greatest book ever published, on sale at Bush's.

INVESTIGATION IN PHILADELPHIA.

All the Members of the Senatorial Committee Are on Hand.

Philadelphia, July 26.—All the members of the senatorial investigating committee are in the city except Senator Hardenburg. It is understood that either to-morrow or on Monday the committee will hold its preliminary meeting. Judging from individual views of committeemen and the ardent desire of Senator Quay's most influential lieutenants, there is no doubt that the committe will begin the examination of witnesses within the next fortnight.

State Chairman Gilkeson was in the city today and said: "I don't wish to discuss the campaign or the issues further than I have done in my letter to Chairman Smyth of Williamsport. I have refrained from newspaper talk thus far, and I wish to continue the course until the end. My friends in Philadelphia can tell how well we are satisfied with the condition of the campaign, and I can add nothing to what they have to say."

Was Opposed to Bloomers.

Rochester, N. Y., July 26.—Miss Mary E. Johnson, a typewriter in the employ of a well-known firm of attorneys, appeared yesterday in a suit of bloomers and astride a man's high geared wheel. She was completing some work in the office previous to her departure on a spin to the lake when the senior member of the law firm entered. He was surprised to find so many of his gentlemen clients present. He spied the young girl with the bloomers and jaunty cap and immediately ordered her to return home and not return. The young lady, who recently came from Chicago, where such dress is common, spent much time in tears this morning and declares that she will demand satisfaction. Her irate employer says her costume was disgraceful.

Huntingdon Reformatory.

The annual report of the Huntingdon Reformatory for the year ending June 30, 1895, has just been filed with the Secretary of Internal Affairs. It shows the number of pupils present January 1, 1895, 547; received during January, 133; returned from parole, 20; escaped inmates captured 1; total, 701. Patroled in the past six months, 168; discharged at expiration of maximum sentence, 17; died, 4; sent to penitentiary, 1; discharged on parole, 23; pardoned by governor, 2; escaped from farm while at work, 2; present number of inmates, 484; total, 701. The institution has never been in a more flourishing condition. The insubordination manifest two years ago has disappeared, and under Superintendent Patton there is complete harmony.

Shocked With 3,000 Volts and Lives.

Philadelphia, July 26.—William Schiller, a lineman for an electric light company got a shock of 3,000 volts through his body to-night, and, although terribly injured, will live. Schiller was making some repairs on a pole at Eighty eight and Diamond streets when he received the shock. He was hurriedly taken to the hospital, and there it was found that his hand was so terribly burned that it will have to be amputated, and on his thigh was a burn reaching into the bone. Schiller's escape from death is remarkable, as he laid across two powerful electric light wires for fully two minutes, and during that time a current of 3,000 volts passed through his body.

The Works Will Close Down.

Cleveland, O., July 26.—The H. P. Nail Works company announced to-day that the rod mill will be closed indefinitely to-night. The strike committee gave the company until August 1 to decide whether an advance of 12½ per cent. would be given the men. The superintendent states that the demand cannot be granted, and it has been decided to cease operations entirely. This means the closing of the entire plant. It is alleged that the H. P. company has been filling orders for rods for the American wire works.

A Murderer Identified.

Wilkesbarre, Pa., July 25.—The man who was captured a few days ago in a mining camp at Monongah, W. Va., was positively identified at that place yesterday by Detective O'Brien, of this city, and Chief of Police Loftus, of Pittston, as Geo. Windisch, of Hughestown, this county, who brutally murdered his wife on the night of April 4 last. The officers, who have procured requisition papers, will return to this city to-morrow with the prisoner.

An Over-Supply of Teachers.

County superintendents of public schools throughout the State report that the number of applications for positions as teachers in the schools has greatly increased. There may be several reasons for this, but probably the principal one is that public schools have fitted many more persons for teachers than there were formally. The remedy for an over supply of applicants will be to raise the standard of qualifications for teachers higher than it has been.

English Spavin Liniment removes all Hard, Soft or Calloused Lumps and Blemishes from horses, Blood Spavins, Curbs, Splints, Sweeney, Ring-Bone, Stifles, Sprains, all Swollen Throats, Coughs, etc. Save $50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by F. Potts Green, Druggist, Bellefonte, Pa. 8-20-1y

THE LOGICAL SEQUENCE.

Seed Division of the Agricultural Department to Be Abolished.

Washington, July 26.—Secretary Morton's antagonism to the existence of the seed division of the agricultural department reached its logical conclusion to-day in an order abolishing the division, to take effect on October 1, by which date M. E. Fagan, chief of the division, by the same order, is directed to have its work wound up.

In a letter to the chief announcing his purposes, Secretary Morton instructs Mr. Fagan that his executive report for the fiscal year ended June 30, 1895, must state in detail the work of the division, giving the number of packages of seed sent out, by whom sent and where, the aggregate weight of all seed transmitted gratuitously through the United States mail. The secretary further directed him to include in the report excerpts from the newspapers of the country "giving their opinion of the usefulness and extravagance of the gratuitous, promiscuous distribution of seeds through members of congress by the department of agriculture."

As a result of all these things, says the secretary in conclusion, there will be no seeds purchased for gratuitous, promiscuous distribution during the fiscal year 1896 by the United States department of agriculture. In view of the above, you will observe that the necessity of your being continued in office, together with the force immediately under you, will not exist after October 1, 1895, by which date it is demanded that all business of the seed division shall have been thoroughly finished up and reported upon.

Mr. Fagan acknowledged the receipt of the letter and in reply wrote:

"I will place my resignation in your hands on the date named with a complete report of all work performed. I congratulate you upon the action taken in this matter, as I have been fully convinced since my last examination of the week of the discussion that no reasonable excuse could be offered in behalf of its continuance, and so stated in my first annual report."

The abolishing of the seed division will throw out of employment ten people, besides the chief, at present, and will result in depriving fully 150 more of occupation during the busy season—the winter months—when it is customary to send out the bulk of the seeds. The chief has a salary of $2,000 a year. There are two clerks at $1,200 and eight at $840. The extra force employed in the winter season is paid at the rate of $1.50 per day. It is probable that Mr. Fagan will be appointed to another branch of the service after his resignation as chief of the seed division takes effect.

Soldiers' Orphans Schools Crowded.

The soldiers' orphan school commission will be compelled to reject many applications for the admission of children of soldiers into the new industrial school at Scotland and other soldiers orphan schools because of insufficient room to accommodate them. The aggregate capacity of the four schools under the supervision of the commission is about 1,000. The last legislature was asked to appropriate $225,000 to add sufficient room to the industrial school to enable the others to be abandoned and thus have all the children of soldiers in one building, but owing to the congested condition of the state treasury the house appropriations committee reported the bill negatively.

The schools at Uniontown, Hartford and Chester Springs will, therefore, have to be continued at least two years more. Under the law all destitute children of former soldiers or sailors are proper subjects for admission to the various orphan schools. Originally only orphans of soldiers and sailors were admitted to the institutions. The soldiers' orphan school system has been in operation in Pennsylvania thirty-one years, and during that time the appropriations on account of it were nearly $11,000,000. The last appropriation was $350,000 for the next two years. Although only four places are open for teachers in the industrial school the number of applicants who have graduated from normal schools in the state is about 125.

Another Misdemeanor.

Corner lounging in this State is now defined to be a misdemeanor; hitherto the judges of the courts have held that it was not a criminal offense. For the benefit of the public we recite the act:

"That from and after the passage of this act, if any person or persons shall wilfully make or cause to be made any loud, boisterous and unseemly noise or disturbance, to the annoyance of the peaceable residents near by, or shall thereby cause the assemblage of persons upon or near to any public highway, road, street, lane, alley, park, square or common within this Commonwealth, whereby the public peace is broken or disturbed, or the traveling public annoyed, he, or she or they shall be guilty of the offense of disorderly conduct, and upon conviction thereof before any justice of the peace, alderman, mayor or burgess, shall be sentenced to pay the costs of prosecution, and to forfeit and pay a fine not exceeding ten dollars, and in default of the payment thereof shall be committed to and imprisoned in the county jail of the proper county, for a period not exceeding thirty days."

Cleveland Prefers Bonds.

There is a touching anxiety shown by the free trade Democrats over the possible failure of the Republicans in Congress to accept the free trade proposition to raise more revenue by doubling the tax on beer It is true that Secretary Carlisle and the Democrats in general promptly refused to listen to such a proposition in view of the opposition of the rich brewers; but that is no reason why the Republicans should not act on the proposal.

A duty on wool and the restoration of the $42,000,000 in duties taken off from luxuries by the Democrats will be one of the first efforts of the Republicans. Absinthe cordials, Scotch whisky, wines, etc., will not long be allowed to come in at all the reduced rates fixed in the Wilson Gorman bill. Sugar should go on the free list and the bounty be restored. There are many other things that might well be done but for, where there is little hope while a Democrat remains President.

It would be much better to give the people free sugar than to tax sugar and allow beer to be practically free from internal tax, as the Democrats arranged their tariff bill. But as long as there is a Democratic Executive there will be no increased tax on beer or on foreign luxuries, including wines and Scotch whisky. The Democratic method is to carry on the government by increasing its bonded indebtedness, paying unprecedented and unheard of "commissions" to foreign bankers and entailing an annual interest charge of millions of dollars on the people.

This method of conducting the government is likely to continue while Mr. Cleveland retains a veto power over legislation. Hence there is no use of worrying about a tax on beer.

Causes Business Depression.

A contemporary reasons to its own satisfaction that the bicycle craze is the cause of the present depression in business. It is true that there is a wonderful furore all over the country about bicycles, and it started just about the time the financial crash began. It is singular, too, that millions of dollars have been invested in the bicycle business by men and women of means and of no means, right in the face of one of the hardest times the country has ever experienced. How can it be accounted for? On two principles: One is that people of means will seek investment in something, be it diamonds stocks, bonds or luxuries, and people of no means will follow a fashion if they have to borrow to do so. Thus it is that rich and poor alike have been carried away by the bicycle craze, regardless of the hard times. Nevertheless it is a sensible fashion, and if not carried to excess bicycle riding is a healthful, enjoyable pastime that has come to stay.

A Smart Boy.

A few days since a gentleman of a neighboring town was greatly amused by two small boys who were playing school as they sat on the doorstep. He heard one of them say: "Now if you take two from one it leaves one, and if you take one from two it leaves two." The gentleman, laughing offered the boy a ten cent piece if he could prove the sum. The boy nothing abashed eagerly accepted the offer and led him into the house, where his mother sat nursing twins. "Now, sir," said the boy, "if I take mother away from the twins I shall leave two, and if I then take the twins away from mother I shall take two away from one and one will remain." The visitor at once gave the boy the ten cents, at the same time laughing heartily at the logic of the rising generation.

A Track Sulky.

Mr. Frank J. Gibbs, of Tyrone, who is at present located at the Altoona driving park, has completed a patent track sulky that is expected to revolutionize the trotting world. The sulky is so constructed that by a mere pressure of the foot in rounding the turn the sulky axle on the outside will raise and the inside lower, practically confining to the circular motion, and when the straight line is gained a similar pressure of the foot brings the sulky back to its natural position. The wheels are ball bearing, pneumatic tire and are fifty-two inches in height.

Where Brains are Cheap.

Newport Ledger: The correspondent from Tyrone township, Perry county, says the teachers of that district "signed an agreement to teach six hours a day, twenty days a month, chop the wood, make the fire, find the matches, sweep the house, etc., all for the munificent sum of twenty-two dollars a month." Six of the teachers are females, too.

Fire at Eagleville.

At Eagleville yesterday afternoon the residence of Mrs. Sarah M. McCloskey was entirely destroyed with nearly all the contents. The origin of the flames was not learned. The loss is placed ot $2,000, but O'Connor & McCormisk have insurance on the property amounting to $1,000.

—General B. F. Fisher, of Philadelphia, has notified General Jesse Merrill, that he will address the Clinton county veterans on August 15, the date that association will hold its reunion at Clintondale Park. General Fisher is one of the soldiers who dug his way out of Libby prison and is as good a talker as he was a soldier.

Keep.

Keep to the right, as the law directs.
Keep from the world thy friend's defects.
Keep all thy thoughts on purest themes.
Keep from the eyes the motes and beams.
Keep true thy deeds. Thy honor bright.
Keep firm thy faith in God and right.
Keep free from every sin and stain.
Keep from the ways that bring thee pain.
Keep free the tongue from words of ill.
Kee good thy aim and good thy will.
Keep good thy acts from passion free.
Keep strong in hope, no envy see.
Keep watchful care o'er tongue and hand.
Keep firm thy feet, by justice stand.
Keep true thy word, a sacred thing.
Keep from the snare thy tempers bring.
Keep faith with each you call a friend.
Keep from all hate and malice free.
Keep firm thy courage bold and strong.
Keep up the right and down the wrong.
Keep well the words of wisdom's school.
Keep warm by night, by day keep cool.

—Labor Day in Pennsylvania is the first Saturday in September; in most of the other states, and in the District of Columbia, it is the first Monday in September. The state legislature did not make any change in the date.

—A fellow signing the name of L. C. Johnston worked the Tyrone, Altoona and Huntingdon banks for a number of forged checks for small amounts. After reaping a harvest of several hundred dollars the fellow disappeared as effectually as if the earth had opened and swallowed him.

HE WORKED THE BANK.

A Stranger Passes a Forged Check on Cashier Mingle, Centre Hall.

On Tuesday morning a man aged about 28 years, fairly well dressed, with mustache, entered the Penns Valley bank and presented a check on the First National bank, of Bellefonte, and signed by Enoch Hugg, who is a dealer in general merchandise at Milesburg. The check was made payable to —— Carpenter.

When Carpenter presented the check he also handed over a letter, signed by Hugg, and written on the firm's printed stationery. The letter was addressed to the cashier, Wm. B. Mingle, requesting him to cash the check for Carpenter; giving as the reason that the check had been drawn on Monday evening and Carpenter going to Centre Hall early Tuesday morning, could not get it cashed at the Bellefonte bank. Carpenter also stated that he had come to Centre Hall to buy some cattle that had been shipped there.

Cashier Mingle called up the Bellefonte First National and was informed by Mr. Montgomery that Mr. Hugg had an account there which more than covered the amount of the check, on learning which Mr. Mingle promptly handed over the $197 the amount for which the check was made out.

Before presenting the check Carpenter ordered a rig from Boozer's livery, to go to Bellefonte, and here is where he mixed up his scheme which had so far worked successfully. In the bank he said he wanted to drive out about three miles to look at some cattle. There was some delay in getting out the rig, and the bank heard of him going in another direction, and became suspicious. The First National was again called up, and the number of the check did not correspond with others given by Mr. Hugg. He was notified of the transaction, and pronounced letter and check a forgery.

When Carpenter left the bank he went to the hotel and spent about fifty cents for whiskey and cigars. He started down the street and had gone but about three blocks when Cashier Mingle and Frank Crawford a pseudo constable, overtook him and the stranger was placed under fake arrest by the latter gentleman, and was made to hand over the money, the entire amount of the $197, with the exception of a few cents, being recovered. The man was then let go, and immediately skipped the town. Although the stranger gave his name as Carpenter, it is generally believed that the name was assumed, and that the fellow was none other than a certain Milesburger who has just served out a sentence in the penitentiary for a similar offense.

Dont's for Summer Girls.

Don't use the summer slang.
Don't stare at every newcomer,
Don't wear scarfpins in bow ties.
Don't smoke cigarettes on the street.
Don't wear jewelry in a shirt waist.
Don't run after the man in the moon.
Don't use up all your brothers neckties.
Don't go to the post office ten times a day.
Don't wear a veil. It looks unwholesome.
Don't pretend to be anything that you are not.
Don't be one of more than two in a hammock.
Don't monopolize the only man at a picnic.
Don't talk about dresses more than ten hours per day.
Don't wear your bicycle costume to the dinner table.
Don't dress yourself in all the colors of the rainbow.
Don't get engaged more than once at the same resort.
Don't forget that even a summer girl may be dignified.

Nothing But Pennies.

A gang of college students at Adrian, Mich., got the laugh on a Lake Shore railroad conductor. Three hundred of them went down to Jonesville. The fare is only fifteen cents, but every one of these fellows gave him copper pennies. Where they got them is a mystery. There were 4500 red cents in all. When they came back they did the same thing. There was no use of kicking.

POLICE COMMISSIONER ROOSEVELT, in New York, has been getting so much celebrity by enforcing the Sunday laws that our own enterprising authorities are determined not to be left behind. They are going to compel the butchers and bakers and small shopkeepers on South street and parts adjacent to shut up on Sunday.

It is evident from the names of the culprits brought before Magistrate South yesterday that most of them are Hebrews, who have no inherent regard for the first day of the week and it is probable that many of them were not even aware of the civil law they were offending. The merciful Magistrate let them off with cost and a warning not to offend again.

Hereafter the inhabitants of Southwark must lay in their provisions on Saturday night.

—A fireman on a Harrisburg coal train named Martin saw two men in the Tyrone yards on Tuesday afternoon whom he thought were Joe West and Evans, the escaped robbers from the Mifflintown jail. Martin notified Officer Barr and together the men were captured, but after a short investigation they proved not to be the men wanted, so they were allowed to count ties, which they did at once.

His Real Name is Gonchoir.

C. T. Alexander, the officer connected with the Gilkinson Detective Bureau of Pittsburg, who with Lawyer Hartman arrested the jail breakers at Scotia the other day, was in town yesterday evening and went west on fast line. The name of the man arrested is Simon Gonchoir, but he was known as Simon Dunshot at Scotia and in other places has been known as Josef Schenck and as Josef Swierz. Alexander says the man admitted after being arrested that he is the man who broke jail in Germany but insisted that he had nothing to do with blowing the prison up. This of course establishes the fact that they caught the right man, and the evidence alone of Alexander and Hartman at the hearing before United States commissioner at New York to-morrow will probably be sufficient in the mind of that officer to justify the issuing of extradition papers for the delivery of Gonchoir to the authorities in Germany.

As to the authority for arresting the criminal the New York World of Saturday says "The German Consul in this city put the case in the hands of Dulon & Roe, lawyers, of No. 115 Broadway, who assigned it to Carl Hartman, of their firm. This gentleman got a warrant from United States Commissioner Lyman for the arrest of the man, and he got himself made a Deputy United States Marshal to serve it. Then he went to Pittsburg and enlisted the aid of Gilkinson's detective agency." The story of the arrest has been told in these columns.

Statements as to the exact character of the crime committed by Gonchoir differ somewhat. One story indicates that he blew up with dynamite a police station and engine house adjoining the jail from which he escaped, and that an officer was badly injured by the explosion but finally recovered. Another statement is that he blew up the jail, and a third is given by the World as follows: "It is charged that he put a dynamite cartridge in the house of a game keeper who had arrested him at Lugman, Silesia, Prussia, for poaching, and attached a time fuse to it. The man was arrested, charged with arson and with assault with intent to kill. At first he laughed at the charge, but when he heard evidence that the Government had, he broke jail and fled to this country. He was finally located at Scotia, Centre county, Pa.

Dumas' Golden Rules.

Walk two hours every day; sleep seven hours every night; go to bed always alone if you need to sleep; get up as soon as you wake; work as soon as you get up; eat only when you are hungry, and drink only when you are thirsty, and eat and drink always slowly.

Never speak except when it is necessary and never say more than half of what you think; never write anything that you cannot sign, and never do anything that you cannot avow; never forget that others will count upon you, and that you must never count upon them; value money at its real worth, neither more nor less; it is a good servant but a bad master.

The Logan Picnic.

The Logan Fire Company, No. 1, of Bellefonte, have decided to hold their annual picnic at Hunter's Park on August 15th. The company will serve all kinds of refreshments on the ground and a full orchestra will furnish music for dancing the entire day. There will also be a lot of sports and races on the Athletic ground in the afternoon, for which the entire program will be announced later. The Bellefonte Central railroad will run trains between Bellefonte and the Park and between State College and the Park almost every hour. They will also run special trains over the Red Bank branch.

Twenty-Five Dollars Reward.

Is offered by J. H. Keller, Chief of Police, of Lock Haven, for any information that will lead to the discovery of the whereabouts of Daniel Wormer, late a resident of that city, and who disappeared on the night of July 18th. He was aged about 62 years, was a man of medium height and had short gray chin whiskers, and a slightly disfigured nose. When last seen he wore blue blouse, night shirt, black pantaloons and congress gaitors. He had in his possession a revolver and razor. It is feared that he has been foully dealt with.

Roland Post Office Robbers.

Edward Hanahan, James O'neil and G. Null, the three men who are charged with robbing the post office and store at Roland, Centre county, recently, and one of whom was arrested in this city, had a hearing before United States Commissioner Bently at Williamsport yesterday. In default of $500 bail each they were sent to jail for trial at the September term of the U. S. court in that city.

Had Both Legs Cut Off.

About half-past twelve o'clock Thursday "Denny" Burns, of Williamsport, undertook to jump on a freight train at Milesburg just as it was leaving there for Bellefonte, and missing his footing, fell under the train and had both legs cut off about half-way above the knee. He was brought to Bellefonte and his limbs amputated and dressed.

Train Robbery and Its Cure.

The reappearance of the train robbing enterprise in Northwestern Ohio, and the success of the gang in stopping a train and opening the express safes, gives a rude shock to the hope that that species of highway robbery had been made so hazardous as to cause its discontinuance. The case of yesterday morning proves the contrary, namely that near the center of population trains can be stopped and robbed with a minimum of hazard to the robbers.

The country has got so thoroughly in the habit of relying on general respect for the lawful rights of others, that when evidence is furnished that the law-abiding and honest spirit is no longer a protection against robbers, it cannot readily get out of the rut enough to suppress the lawlessness. This is true of other things than train-robbery; but it is signally illustrated in that connection. It has been demonstrated that a small guard of armed and determined men can make train-robbery equivalent to suicide, on the part of the robbers. But, because railroad and express managers find it hard to realize that their trains are no longer protected by the popular respect for law, they must adopt that precaution.

It is time to understand that people must protect themselves by fighting thieves and robbers and being ready to fight them. The rule applies to dishonesty of all degrees and forms, but it is especially obvious as regards the most modern highwaymen.

Anothor Spanish Insult.

Spain has insulted the American flag again, according to report of the captain of the Carrie Lane, and in a manner wholly unwarranted and unjustifiable. The long delayed apology in the Allianca case will not suffice for this new outrage. Repeated apologies for the same persistent class of offense become monotonous, and when they come so tardily off they are not convincing that injury was not intended to be added to insult.

The Spanish gunboat which fired upon the Lane did not raise its colors until the last shot had been fired. When the American sent its flag to the peak the Spaniard ran up its colors and fired again, as it might have been expected to if the United States and Spain were belligerent nations, instead of friendly powers, as Spain insists they are when asking Uncle Sam to protect her against fillbustering expeditions. The whole reported case is outrageous. A Spanish gunboat signaling an American schooner to stop without displaying its colors and firing upon it for non-obedience! Is an American vessel expected to stop for any private craft resembling a New York tug that gives a signal without displaying its colors?

Legalizing Typewriting.

Typewriting now has a legal status in Pennsylvania, the last legislature having enacted a law declaring that all typewriting heretofore executed or done, and which may hereafter be executed or done for any purpose whatever, shall have the same legal force and effect as ordinary writing. The word "writing" occuring in our laws shall be held to include typewriting. For instance, our statutes provide that all wills shall be in writing. The question as to whether a typewritten will is a statutory will, and all other possible controversies of this nature are avoided by this legislation.

Cheap Oranges in California.

Oranges are cheap in California and Miss Ida Marshall, of Lock Haven, was apprised of that fact a few days ago in a manner that very much surprised her. The young lady has for the last year been visiting relatives in Missouri, Kansas, Arizona, and other western states. On arriving at the hotel in Los Angeles, Cal., she sent for twenty-five cents worth of oranges. Instead of getting only a few, as the young lady thought, the porter took her 125 of the finest variety. According to the price oranges must be a drug on the market in that state.

Goes to Snow Shoe.

The many friends of our late fellow townsman A. C. Thompson will be pained to learn that he will not be with us again the coming year as teacher at Cold Stream notwithstanding the fact that he had been elected, where he has been a most successful teacher for four years. It is with great regret that he leaves for his new field of labor at Show Shoe at the opening of their schools, being elected principal at that place. Our best wishes go with him to his new field of labor. May he be as successful there as he has been here.—Philipsburg *Journal*.

A Big Yield of Hay.

Isaac C. McCloskey, of Karthaus township, has sixty acres of grass in two fields which he expects to yield about seventy-five tons of hay. In 1894 he cut from his meadow one hundred tons of hay, baled the same and sold it for an average of $15 a ton. Farmers can make more out of grass than they can out of wheat.—Raftsman's Journal.

—Itch on human, mange of horses, dog, and all stock, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by F Potts Green, druggist, Bellefonte, Pa. v26-5-1y

"HE THAT WORKS EASILY, WORKS SUCCESSFULLY." CLEAN HOUSE WITH
SAPOLIO

DIRECTIONS for using CREAM BALM

Apply a particle of the Balm well up into the nostrils. After a moment draw a strong breath thro' the nose. Use three times a day, after meals preferred, and before retiring.

CATARRH

ELY BROTHERS, 56 Warren St., New York

Common Medicines.

Tartaric acid was first extracted by Scheele in 1770.

Opium is the juice of the unripe capsules of the poppy.

Bromide was discovered by Ballara, of Montpelier, in 1826.

Phosphorous was discovered in 1669 by Brandt, of Hamburg.

Chromic acid was first employed as a caustic by Sigmund, of Vienna.

Sulphuric and nitric acids were known to Geber, the alchemist, in the eighth century.

Creosote was discovered in 1830 by Reichenbach, who extracted it from the tar of wood.

Potassium, the basis of many medicines, was discovered in 1807 by Sir Humphrey Davy.

Alcohol was first distinguished as an elementary substance by Albucasis, in the Twelfth century.

Glycerine was discovered by Scheele in 1789. He considered it the soothing principle of every kind of oil.

Antimony is found in many countries. It is exported to this country and England from France, Spain and Holland.

Nux vomica is prepared from the seeds of a tree that grows in abundance in India, the East Indies and Ceylon.

Bismuth was first separated and distinguished as a metal by Agricola, the famous chemist and scientist, in 1520.

The clove is the dried and unexpanded bud of a tree technically known to botanists as the caryophyllus aromaticus.

Lobelia, also called Indian tobacco, is known as a common herb often growing as a weed in many parts of the United States.

Peppermint is a native to Europe, but it is said to be grown in several places in this country for the purpose of preparing the extract.

Horse radish as a medicine and condiment is mentioned in the Egyptian records, 2000 years B. C. It is easily grown in almost any part of the world.

Myrrh has been known from the earliest times, but only in the present century has the tree from which it comes been identified in Arabia and Persia.

Calomel was discovered by Crolins in the seventeenth century, and the first directions for its preparation were given by Beguin in 1608. Its name is derived from two Greek words, signifying "a beautiful black," because, in its preparation, a black powder is the first step in the manufacture being produced by rubbing mercury together with corrosive sublimate.

Relief In Six Hours.

Distressing Kidney and Bladder disease relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by F. Potts Green, Druggist, Bellefonte, Pa. 6-20-1y.

SINFUL HABITS IN YOUTH

LATER EXCESSES IN MANHOOD

MAKE NERVOUS, DISEASED MEN

THE RESULT of ignorance and folly in youth, overexertion of mind and body indulged by lust and exposure are constantly wrecking the lives and future happiness of thousands of promising young men. Some fade and wither at an early age, at the blossom of manhood, while others are forced to drag out a weary, fruitless and melancholy existence. Others reach matrimony but find no solace or comfort there. The victims are found in all stations of life:—The farm, the office, the workshop, the pulpit, the trades and the professions.

RESTORED TO MANHOOD BY DRS. K. & K.

WM. A. WALKER. WM. A. WALKER. MRS. CHAS. FERRY, CHAS. FERRY.

BEFORE TREATMENT AFTER TREATMENT Divorced but united again

NO NAMES OR TESTIMONIALS USED WITHOUT WRITTEN CONSENT.

SYPHILIS EMISSIONS STRICTURE CURED

Wm. A. Walker of 15th Street says:—"I have suffered untold agonies for my "gay life." I was indiscreet when young and ignorant. As "One of the Boys" I contracted Syphilis and other Private diseases. I had ulcers in the mouth and throat, bone pains, hair loose, pimples on face, finger nails came off, emissions, became thin and despondent. Seven doctors treated me with Mercury, Potash, etc. They helped me but could not cure me. Finally a friend induced me to try Drs. Kennedy & Keegan's New Method Treatment. Their treatment is wonderful. In a few weeks. You feel yourself gaining every day. I have never heard of their failing to cure in a single case."

CURES GUARANTEED OR MONEY REFUNDED

Capt. Chas. Ferry says:—"I owe my life to Drs. K. & K. At 14 I learned a bad habit. At 21 I had all the symptoms of Seminal Weakness and Spermatorrhœa. Emissions were draining and weakening my vitality. I married at 24 under advice of my family doctor, but it was a sad experience. In eighteen months we were divorced. I then consulted Drs. K. & K., who restored me to manhood by their New Method Treatment. I felt a new life thrill through my nerves. We were united again and are happy. This was six years ago. Drs. K. & K. are scientific specialists and I heartily recommend them."

IMPOTENCY VARICOCELE EMISSIONS CURED

We treat and cure Varicocele, Emissions, Nervous Debility, Seminal Weakness, Gleet, Stricture, Syphilis, Unnatural Discharges, Self Abuse, Kidney and Bladder Diseases.

17 YEARS IN OHIO, 200,000 CURED. NO RISK

READER! Are you a victim? Have you lost hope? Are you contemplating marriage? Has your Blood been diseased? Have you any weakness? Our New Method Treatment will cure you. What it has done for others it will do for you. CONSULTATION FREE. No matter who has treated you, write for an honest opinion Free of Charge. Large pamphlet, BOOK FREE—"The Golden Monitor" (illustrated), on Diseases of Men. Inclose postage, 2 cents. Sealed.

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No medicine sent C. O. D. No names on boxes or envelopes. Everything confidential. Question list and cost of Treatment, FREE.

Send this notice to your friend and get TEN DAYS TREATMENT FREE. DR. H. H. GREEN & SONS, ATLANTA, GEORGIA

Bellefonte Republican,

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.

Correspondents should write upon but one side of the paper, and avoid the use of pale or colored inks.

EDWARD T. TUTEN.

Local Department.

—Hunter's Park seems to be getting a fair share of the picnics this season. There is no denying the beauty and popularity of that resort.

—The Republican faction fight is still waged with unabated fury throughout the State, with no apparent signs of a truce or a compromise by either party.

—The Pope Manufacturing company offers a $950 piano to the bicycle club making the best time in a 25 mile road race. Here is an opportunity for the Bellefonte cycle club's sprinters.

—The newspaper man learns not to expect any thanks for the many pleasant things he may say about other people, but to gain undying enmity if he mildly criticises even their most glaring fauits.

—Rev. W. W. Hess of Boalsburg, will deliver a sermon to the Railroad men of Bellefonte at the United Evangelical church on Willow Bank street, Sunday evening Aug. 4th at 7.30. All are cordially invited to attend.

—James R. Hughes was last week elected assistant principal of the Bellefonte Academy in this place. This is a well-merited promotion, as James is a student of more than ordinary ability. We wish for him still higher honors.

—Mrs. William Harrison died at her home at Pleasant Gap Saturday evening. Her husband was a brother of Prof. J. H. Harrison, of the Bellefonte schools, and the couple had been married less than a year. The funeral took place Tuesday.

—Never make a remark about your neighbor that you are unwilling to father or that you don't want him to hear. For you may be certain that once the words have passed your lips they will go straight to the person who may be most particularly interested.

—When Frank Willing Leach met Howard Lyon, of Williamsport (by letter) it was a simple case of Greek meet Greek; but it is a question yet to determine whether it is wisest for a fool to be given a fool's reply to a civil question. Ultimate developmen s, however, may more fully demonstrate this important fact to the satisfaction of some one.

—The funeral of Charles Smith, Sr., occurred from the residence of his son, on Bishop street, on Tuesdayat 10 o'clock and was very largely attended. The services were held by Rev. R. E. Wright, of the Episcopal church, and the pall-bearers were Messrs. W. C. Heinle, C. D. Crider, W. A. Ishler, John Kline, Wm. Jenkins and George W. Rumberger.

—At Lewisburg, Pa., James B. Forrest used the sidewalk for bicycling. A citizen sued him and the justice fined him $6. Defendant appealed and the Union county court reversed the justice. Forrest appealed to the Supreme court and that tribunal has reversed the lower court and sustained the justice. The Supreme court says sidewalks are only for travelers.

—On the 12th of August representatives from Bellefonte conclave No. 111, Altoona conclave No. 132, Standing Stone conclave No. 134, of Huntingdon; Hollidaysburg conclave No. 135, Tyrone conclave No 138 and Johnstown conclave No. 140, of the Improved Order Heptasophs, will meet in Altoona, for the purpose of electing a deputy supreme archon for district No. 22, which is composed of the six conclaves named.

—Said a citizen who is always anxious to gain new information, to another citizen who sometimes is able to impart that which all other people do not know: "If an iceberg extends two hundred feet above the water, how much is below the surface?" To which the reply quickly came: "The balance of the accumulated congealed aqua of course?" Then number two passed on leaving number one in a congratulatory frame of mind, though not much the wiser of having propounded the query.

—On Thursday afternoon of this week, at 3.45 o'clock, Mr. James McConkey will be present in the temperance rooms, in Crider s Exchange, to give the third in his series of Bible lessons, inaugurated four weeks ago and occurring on Thursday of each alternate week. As usual, he will probably take some subject connected with the Sunday school lesson of the succeeding Sunday. These lessons are for all, both gentlemen and ladies, and those who attend will be greatly benefited in hearing them.

—Ed. Swartz, the tailor, is receiving the congratulations of his friends on the fact that it is a boy. He thinks it is the only boy on earth, and is highly overjoyed. As soon as the sex was announced Ed. started to rush frantically down stairs. "Where are you going?" inquired the Doctor. "Why, you gilly," replied Mr. Swartz in an injured tone of voice, "I'm going to cut out a suit of clothes for him. There has been a mistake. We have nothing but dresses for him. He needs pants." —Punxsutawney *Spirit*.

Ed. is an old Bellefonte boy and his friends here will rejoice with him over this happy event.

—Have you seen the new moon yet?

—Isn't this delightful weather—for colds and "sich" like.

—A slipper used judiciously will often make a dull child smart.

—Peaches, though reported very plentiful, are a long time making their appearance.

—It required sixteen cars to transport the Methodists of Williamsport to Hecla Park on Thursday.

—And the huckleberry season is not near ended, according to reports from the mountainous districts.

—An early settler is one who pays his bills promptly. Oh, that this office had more early settlers locate here!

—And now it turns out that the item sent out from Philipsburg about Mrs. Jas. Keith's triplets was a canard of the quadruple type.

—Mr. John S. Waite, who had contemplated moving to New York state, has about given up the idea because of the ill-health of his wife.

—Ex-sheriff Ishler has sold his interest in the livery business to his partner Joseph Rightnour, who will continue the business at the old stand. Joe is a good fellow and we hope he will get along swimingly.

—A slight fire was discovered in the blacksmith shop at the Valentine Iron Co's works here on Thursday morning at 4 o'clock. The damage was comparatively small, and the origin of the fire a mystery.

—Miss Mary Brockerhoff gave a very delightful lawn party at the Brockerhoff residence on Wednesday evening in honor of her friend, Miss Helen Simpson, of Lock Haven, who is her guest. The lawn was beautifully decorated and brightly illuminated with Japanese lanters. Later in the evening the fifty guests present enjoyed a two hours social dance.

—The Reformed church sociable will be held this (Thursday) evening at the residence of A. Lukenbach, on Willowbank street. There will be refreshments of the choicest kinds, including, fruits, ice cream and cake, hot coffee and sandwiches, confectionery, etc. The Bellefonte band will be present to discourse sweet music and the amusements will be a delightful feature. Everybody invited.

—It is the little foxes that destroy the vines in a home life. There are some men who would lay down their lives for their wives and children but who would almost have fits of apoplexy over a button off a shirt or a mislaid paper. There are women who would die at the stake for their husbands but who have an almost unconscious habit of nagging the poor man from morning until night, Strange, isn't it?

—Col. E. J. Pruner has just received the shelving and counters for Parrish's new drug store. They have been placed in position in the lower store room in the Pruner block where Parrish will move his store on Monday. It is certainly the finest outfit in Bellefonte. The carved work is something beautiful. The mirror in front of the prescription case is large and the beveled plate glass will show off with great effect.

—There will be a grand P. O. S. of A. picnic, at Centre Hall, on Saturday, August 10th. It will be held in Smith's grove and among the attractions are a grand parade in the morning at 10 o'clock, a sham battle, base ball game and other amusements. Many visiting orders will be there. Aaronsburg No. 1 band will furnish the music. Dinner will be served on grounds for those who do not care to take a basket.

—Some time ago council passed an ordinance prohibiting any venders of produce, meat or farm products from selling on the streets of Bellefonte before nine o'clock on mornings that market is held. Last Saturday morning we noticed men peddling meat on the streets as early as half past seven o'clock and call the attention of the proper authorities to the great injustice that is being done those who attend market and observe the ordinance. It is but right that it should be enforced with reference to one as well as another.

—The paving of the diamond was a great improvement to that of Bellefonte and a something everybody was interested in. But, unless better care is taken of that part of it surrounding the fountain it will soon be in a condition to need repairing, and will always be an expense to keep in shape. As it is now the water is allowed to run out of the fountain and cover the pavement, keeping it soft, and when horses are being watered, they stand and paw and paw, and it will be but a little while until holes will be dug all around the angel.

—A Shenandoah Hun tried to end the career of a lean, lanky yellow dog by tying a stick of dynamite to his tail. The Hun tied the explosive to the tail of the dog and it was only after he had lit the fuse that he discovered that he had not tied the dog. Then there was a race for life, the man running ahead of the canine and the arsenal keeping up with the dog was gaining on his cruel master who was legging it like an intercollegiate sprinter, and if that piece of dynamite had missed fire that Hungarian would still be running. But the deadly explosion came and up went the dog a mass of granulated meat. Part of the debris covered the fleeing figure of the executioner and he was a sorry looking object when he got back to town.

The Anniversary.

The arrangements for the celebration of the seventy-third anniversary of the founding of the Milesburg Baptist church, which was established August 18, 1822, are progressing nicely. The program as far as definitely arranged is as follows:

August 15th—Preaching by Rev. T. L. Eland, at 7.45 p. m.

August 16th—Preaching by Rev. W. S. Holt, at 7.45 p. m.

August 17th—Preaching by Rev. M. L. Jackson, of Snow Shoe, at 7.45 p. m.

August 18th—Anniversary sermon by the Rev. J. Green Miles, of Spring Garden, at 11 a. m. Rev. S. F. Forgeus, Chaplain of the Huntingdon Reformatory, will preach at 7.45 p. m.

August 19th—Not decided.

August 20th—Preaching by Rev. J. Zeigler, of Snow Shoe Int., at 7.45 p. m.

August 21st—Not decided.

August 22d—A general symposium.

There will also be one day devoted to exercises by the members of the church, during which a short history of the church will be given, which will be very interesting. The general public are cordially invited.

James R. Hughes' Promotion.

In the election of James R. Hughes as assistant principal of the Bellefonte Academy, the trustees of that institution displayed unusual good judgment. James has been professor of ancient and modern languages in the Academy during the past ten years and certainly a more able person for the place could not be found. And in his unanimous selection as assistant principal he is paid a compliment by those who oversee the welfare of the Academy. In his new position Mr. Hughes will have the overseeing of the grounds, buildings, etc., which will relieve his father of much of the arduous duty that has heretofore devolved upon him. It might also be added that this promotion was made at the request of the principal of the school. Although it may now be forgotten, when James R. Hughes graduated in 1885, he was one of the honor men at Princeton and one of nine orators on graduation day.

To Scatter Weather Forecasts.

It is now proposed to telegraph daily to postmasters at distributing offices the weather forecasts, to be bulletined in their offices for the benefit of the public, and also to be mailed to outlying postoffices which can be reached in time to make the forecast of value. A simple device by which the forecasts can be readily and easily duplicated and stamped upon postal cards will be furnished co-operating postmasters by the weather bureau as well as the necessary postal cards for use in this connection.

Hope Reviving at Winterburn.

The DuBois Courier says: Some time ago the lumber industry at Winterburn was finished and the little village has been going into decay for several years. But the present summer the Blanchard heirs, who own thousands of acres in and around the place and which was formerly heavily timbered, have been prospecting for coal and have found a good vein. They proceeded to open the same and in a short time will be ready for shipping.

On His Way Home.

Bishop McGovern, of this Catholic diocese, who has been to Rome, where he reported to Pope Leo the condition of his district, set sail from Havre last Saturday on the Tourine. He is expected to arrive in New York Saturday next. On Tuesday evening next a parade and reception will be given in Harrisburg in honor of his return.

Marriage Licenses.

Following is the list of marriage licenses granted by Orphans' Court Clerk, G. W. Rumberger, during the past week:

William D. Shoulter of Weikert, Union county, Pa., and Melinda E. Fryer, of Coburn, Centre Co., Pa.

P. Gray Murray and Esthelda McLaughlin, both of Boggs township.

Death of a Child.

Martha Gladys Laurie, the infant daughter of Mr. and Mrs. John Laurie, of East Lamb street, and whose age was just 1 year, 6 months and 19 days, died of convulsions on Tuesday at 3.30 o'clock. The funeral occurred Wednesday morning at 9.30.

—Three quite important picnics are to occur at Hunter's Park in the near future. On Thursday, August 8, the Methodists of Bellefonte will have their picnic, and a Methodist picnic always means a large one. On Friday, the 9th, the Presbyterians of State College will picnic there and will doubtless have a number from this end of the line in attendanae. On Thursday, August 15, the Logan Fire Company will hold their picnic at the Park. The Logans always attract a large attendance.

—An unworthy tramp, whose dishonesty proved fruitless, was in Bellefonte Thursday. He professed to be a tinner and applied to a local hardware merchant for aid, stating that he was hungry. The merchant gave him an order on Mr. Mefford's boarding house for supper. The "tinker" took the order to Mr. Mefford and tried to sel it for 10 cents, which Mr. M., being an honest man, wouldn't accept. This is only another instance in which strong drink has debased manhood so that he will beg, steal or cheat to get money to buy liquor.

That golf offers better facilities for flirtation than any other out door recreation

Bucktail Reunion.

Saturday's Lock Haven Democrat says: At the meeting in the sheriff's office yesterday afternoon, part of the arrangements for the reunion of the Bucktails in this city September 4 and 5 were made. The Fallon house was selected as the headquarters of the "vets" during their stay in this city. On Wednesday afternoon, September 4, at 2 o'clock, a business meeting will be held in the post rooms. Wednesday evening a reception will be given in the court house. Thursday morning, business meeting in the post rooms, and Thursday evening the reunion will close with a camp fire in the opera house. It is also likely that a short parade will be given before the campfire. There will be prominent speakers present to deliver addresses at the campfire.

Although the number of survivors has been decimated each succeeding year, yet it is believed that there will be upwards of two hundred visitors in this city during the reunion of old soldiers, wives and daughters. All our citizens should therefore make such preparations for their coming as will assure them a hearty welcome and hospitable treatment.

The arrangements of the reunion will be made by the following named gentlemen: Sheriff Lewis Hoover, chairman of the executive committee of the Bucktails; G. T. Michaels, R. W. Schell and H. D. Loveland, representing John S. Bittner Post. There will also be a citizens' committee, of which Mayor W. H. Mayer will be the chairman.

Lightning's Freaks at DuBois.

DuBois Express: On Saturday afternoon lightning struck the residence of J. W. Kopp, of Knarr street. The electric current entered the flue which is situated in the centre of the house and passed down it. Part of the current tore a hole through the chimney on the second floor and scattered splinters and plaster over a bed on which lay asleep Mr. Kopp's youngest child. The family were all seated in the kitchen around the stove. Their astonishment can be imagined when they saw the flash of lightning issue from the stove. What seemed to them to be a ball of fire struck the son Walter and knocked him about twelve feet distant. The stove was completely wrecked and all the family except Mr. Kopp were stunned. Mr. Kopp rushed upstairs and found that the second floor was ablaze. He speedily extinguished the flames. The walls and ceiling were damaged considerably. The sleeping infant was uninjured, though covered with debris.

A Menace to Health.

On East Howard street, near Union cemetery, is an extensive low place which is being filled up by degrees. If the material used for filling purposes was nothing worse than clean, wholesome ashes it would be all right, but it seems to be made the dumping ground for all the filth in Bellefonte, and hence there is a geat deal that is offensive and unhealthy about it. The other night three trips were made by the wagon belonging to a hotel in this town, and the next morning there was a quantity of decayed vegetables in the place. This has not yet caused sickness, but it may do so. As the place is near the cemetery, it seems to suggest the question. "It is intended to put poor humanity in that condition that their bodies will be worth nothing better than to help fill up the cemetery?"

State College Students Suspended.

The faculty of the State College has suspended the entire class of prospective juniors of that institution. The class has fifty-one members of whom three are women. The students cannot enter the fall term unless they submit to a re-examination in history, as the class when examined at the close of last year are accused of "cribbing." Many students refuse to accept this condition and will not go back to the college unless the notice of expulsion is recalled. If the matter is not fixed up before fall it is likely that the entire student body will rebel at the punishment and the college would be, therefore, without students and could not open at all.

Death of Charles Smith, Sr.

Another very sudden death was that of Mr. Charles Smith, Sr., of this place, which occurred on Saturday night about eleven o'clock. Mr. Smith had been down town in the evening and was suddenly taken ill. He was able to go home where he arrived about 8.30 o'clock. A physician was at once summoned but all his efforts were of no avail and the aged gentleman breathed his last at the time above stated. His death was the result of a very acute attack of asthma.

Deceased was aged about 82 years and made his home with his son, Charles Smith, on Bishop street.

Said Nature to Physic hat pity that we
Who ought to be friends should so seldom agree.
My strength is exhausted, my energy dead
From the volley of blue pills discharged at my head."

It is not strange that Nature should remonstrate against the use of those griping and drastic blue marbles, with which old fogies of medicine persist in dosing their patients. They are not only revolting in appearance, but oftimes actually injurious in their affects. Yet Nature needs some help in overcoming obstinate dyspepsia, constipation and liver troubles, and fortunately she has a very valuable assistant in Dr. Pierce's Pleasant Pellets, which, small as bird seed and sugar-coated, never fail to act effectively though soothingly. 8-1-1t

ABSOLUTELY PURE

CIRCUS COURTESY.

How it Wins Patrons for Scribner & Smith.

There is one thing connected with Scribner & Smith's New United Enormous Shows that is so conspicuously an element conducting to the success of the institution, that it should be mentioned, as it is not to be found with any other show, and that is the universal courtesy and politeness of the attaches. The rule holds good from the proprietor to the lowest employee of the show. All are naturally inclined to treat the patrons politely and furnish information; but the fact otherwise, they would be compelled to do so, owing to the inflexible and rigid rules of the institution. At an entertainment such as Scribner & Smith present, thousands and thousands of ladies and children daily visit it, more especially in the afternoon, and Mr. Scribner years ago recoenized the importance from a business point of throwing around the patrons every possible safeguard, and engaging only those persons who would second his efforts in making the circus a resort for children and ladies. The result has been that the reserved seats in this Scribner Show present an appearance like the orchestra of an opera house, being filled with the glad faces of the children of the best families in town. Of course the wonderful circus, menageria and aerial performances have something to do in drawing the best people to the show, but the guarantee of comfort, protection and freedom from all objectionable features is a great factor. The new street parade will be found to be a revelation also. It will be here on Saturday Aug. 10th.

NIAGARA FALLS.

$10 Tours via. Pennsylvania Railroad.

The next of the series of personally-conducted tours to Niagara Falls, via Pennsylvania Railroad, will leave Washington and Baltimore on August 8.

The rate for round trip tickets, good for ten days, is $10 from Washington and Baltimore; Harrisburg, $8.60; Williamsport, $5.80; proportionate rates from other points.

A special train of Pullman parlor cars and day coaches will be run, and a tourist agent and chaperon will accompany the tour.

The tickets will permit of stop off at Watkins and Rochester in each direction, and at Buffalo on the return trip.

For specific rates and time of trains application should be made to ticket agents, or to Tourist Agent, Room 411, Broad St. Station, Philadelphia.

Senator Quay's Cool Request.

Pittsburg Chronicle Telegraph.

The proposal that the Allegheny county primaries shall be held over again is a refreshing mid-summer suggestion which is hardly seriously made. Since Senator Quay feels assured of a majority in the State Convention, which he calculates at 79, he does not need any delegates from Allegheny county, besides those he has already, and if he did it is not likely that he would get them were the cost and trouble of another election assumed for his gratification. Senator Quay has many friends in Allegheny county, but in seeking an endorsement for his course in opposing apportionment and in fighting the State administration by a coalition with the democrats, his candidacy meets with no favor in Allegheny county, outside of the circle of his personal friends, whose attachment is proof against anything.

How to Advertise.

"Shall I advertise with space or locals?" asked a business man of the editor of an established paper. The editor answered: "If you are going to advertise a shoat for sale a few lines of local are enough. If you have a $6,000 or $10,000 stock of goods two lines would not convey the impression that you want. "Greatest stock on earth at Smith's would lead the reader to ask why Smith did not take an ad. in proportion to his stock.

Take space to correspond with the business you conduct and you will create an impression on the purchasing public that will be a lasting benefit. It has been truthfully said that the effect of good advertising never dies."

A Cat Adopts a Mink and Weasel.

About six weeks ago Oliver, son of Jos. Bearer, of Carroll township, captured a young mink that had not yet opened its eyes and a young weasel. On his return home he gave them in charge of a white Persian cat. The cat took kindly to the little orphans and cared for and nursed them as she did her own kittens. If they were taken from her she would carry them back to her nest again. Both weasel and mink are growing finely and dwell in harmony with their foster mother and her brood.—Spangler Sentinel.

The gold of frame will not always stand the acid of a lean pocketbook.

Personal Pencilings.

Miss Bernice Moore is visiting friends in Tyrone.

Miss Florence Longacre spent a couple days of this week in Howard.

Dr. George F. and Mrs. Harris have returned from their trip to New York.

W. F. Reeder, Esq., is expected to arrive in Bellefonte from his European trip on Thursday.

Prof. G. G. Pond and Mr. W. C. Patterson are two prominent gentlemen of State College who are in Bellefonte today.

Mr. A. C. Garman, wife and two children have gone to Jersey City for a two week's sojourn with friends in that place.

Mr. J. W. Undercoffer and wife of Pittsburg, spent Wednesday in Bellefonte at the home of Joe Undercoffer of this place.

Mr. J. G. Heylmun and son, Harris B., departed on the early train on Tuesday for Atlantic City, where they go for the benefit of the latter's health.

Mr. Thos. K. Morris, Monroe Armour and James Waddle all spent Sunday in Tyrone, while John M. Dale, Esq., whiled away an hour or so in that place Monday morning.

Mrs. Morris Cowdrick, Mr. and Mrs. Elmer Showers, Miss Sallie Miller and Miss Lizzie Gehret were a number of Bellefonte people who took in the Niagara Falls excursion Tuesday. May they all have a pleasant trip.

Small Beginnings

Make great endings sometimes. Ailments that we are apt to consider trivial often grow, through neglect, into atrocious maladies, dangerous in themselves and productive of others. It is the disregard of the earlier indications of ill health which leads to the establishment of all sorts of maladies on a chronic basis. Moreover, there are certain disorders incident to the season, malaria and rheumatism, against which it is always desirable to fortify the system after exposure to the conditions which produce them. Cold, damp and miasma are surely counteracted by Hostetter's Stomach Bitters. After you have incurred risk from these influences a wineglassful or two of Hostetter's Stomach Bitters directly afterward should be swallowed. For malaria, dyspepsia, liver complaint, kidney and bladder trouble, nervousness and debility it is the most deservedly popular of remedies and preventives. A wineglassful before meals promotes appetite.

Experiment With Peaches.

The following from the Somerset Herald will be of interest to the peach growers of this county: A number of the leading fruit growers of this county have given orders for a large lot of peach trees and this fall will set out peach orchards. Twenty-five years ago a great many peaches were grown in this county, but since then but little attention has been paid to the cultivation of luxurious fruit, the idea prevailing that our rigorous climate prevented its successful cultivation. It is claimed that when peach trees have been properly acclimated they will bear fruit in elevated regions the same as in low lands. The experiment will be watched with great interest by all the fruit growers in the county.

SENATOR MARION BUTLER, the North Carolina Populist-Republican, and Senator Tillman, the South Carolina Populist-Democrat, are trying to put a little enthusiasm into the South Carolina State Alliance. Butler wants the shade of Andrew Jackson to "crush the gold-bugs," and Tillman wants the South and West to take up political warfare against the North and East. Both men are false prophets, who are really working mischief, however sincere may be their intentions. Were Old Hickory alive he would have nothing to do with Populism. As for the effort to stir up sectionalism feeling, it will meet with the ignominious defeat it deserves.

Coca-Cola

WHAT IS IT?

Erythroxylon Coca is a small shrub indegineous to the mountains of Peru and Bolivia. It is a powerful nervous excitant giving great vigor to the muscular frame.

Kola is the nut of a tree growing in Africa. It is about the size and shape of an average horse chestnut, and owes its therapentica value to Caffeine, Theobromins and a principle peculiar to itself called Kolanine. It is used by the natives to mitigate muscular fatigue and take the place of food. Experiments are being made by the U. S. Army officers as to its value as an emergency food

Coco Cola Is a syrup for the Soda Fountain said to contain these two drugs in combination. It is recommended by its manufacturers to quench thirst, relieve exhaustion, cure headache and rest the nerves. We have it on drought at 5c. a glass.
